You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the DATES section for the address and phone number) between 9 a.m. and 5 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 1601 Lind Avenue SW., Renton, WA 98057.

Persons interested in being placed on a mailing list for future NPRMs should contact the FAA’s Office of Rulemaking, (202) 267–9677, for a copy of Advisory Circular No. 11–2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by amending Class E airspace designations published in paragraph 6005, of FAA Order 7400.9V, dated August 9, 2011, and effective September 15, 2011. The Class E airspace designations listed in this document will be published subsequently in this Order.

Class E airspace designations are published in paragraph 6005, of FAA Order 7400.9V, dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in this Order.

The FAA has determined that the proposed rulemaking only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle I, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend controlled airspace at Springfield Municipal Airport, Springfield, CO.

Maryland Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule; extension of the comment period.

SUMMARY: We are reopening and extending the public comment period on the proposed amendment to the Maryland regulatory program (the "Maryland program") under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act) that was originally published on January 28, 2011, and was later reopened on March 10, 2011, to extend the comment period and announce a public meeting. The amendment involves provisions to Maryland’s program to regulate coal combustion byproducts (CCBs) and, specifically, the use of CCBs in surface coal mining and reclamation operations within Maryland. The comment period is being extended to incorporate subsequent information that we received from Maryland in response to comments received during the public meeting.

This document gives the times and locations that the Maryland program, and this submittal, are available for your inspection, the comment period during which you may submit written comments, and the procedures that we will follow for the public hearing, if one is requested.

DATES: We will accept written comments until 4 p.m., local time January 25, 2012.

ADDRESSES: You may submit comments, identified by “MD–056–FOR; Docket ID: OSM–2010–0008”, by either of the following two methods:
