I. Procedural Matters

A. Ex Parte Rules-Permit-but-Disclose Proceeding

1. The proceeding this Notice initiates shall be treated as a "permit-but-disclose" proceeding in accordance with the Commission's *ex parte* rules. Persons making *ex parte* presentations

must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter's written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with rule 1.1206(b). In proceedings governed by rule 1.49(f) or for which the Commission has made available a method of electronic filing, written *ex parte* presentations and memoranda summarizing oral *ex parte* presentations, and all attachments thereto, must be filed through the electronic comment filing system available for that proceeding, and must be filed in their native format (e.g., .doc, .xml, .ppt, searchable .pdf). Participants in this proceeding should familiarize themselves with the Commission's *ex parte* rules.

C. Paperwork Reduction Act

3. This *NPRM* may contain proposed new information collection requirements dependent on which potential licensing scheme the Commission adopts. The Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and the Office of Management and Budget (OMB) to comment on the information collection requirements contained in this document, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. In addition, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, *see* 44 U.S.C. 3506(c)(4), we seek specific comment on how we might further reduce the information collection burden for small business concerns with fewer than 25 employees.

II. Initial Regulatory Flexibility Analysis

4. As required by the Regulatory Flexibility Act (RFA), the Commission has prepared this Initial Regulatory Flexibility Analysis (IRFA) of the possible significant economic impact on small entities of the policies and rules proposed in the *Notice of Proposed Rule Making* in WT Docket No. 11-202 (*NPRM*). Written public comments are requested on this IRFA. Comments must be identified as responses to the IRFA and must be filed by the deadlines for comments on the *NPRM* as provided on the first page of this document. The Commission will send a copy of the *NPRM*, including this IRFA, to the Chief Counsel for Advocacy of the Small Business Administration.¹ In addition, the *NPRM* and IRFA (or summaries thereof) will be published in the **Federal Register**.²

5. The proposed rules in the *NPRM* are intended to permit the implementation of foreign object debris (FOD) detection radar in the 78-81 GHz band. FOD at airports can seriously threaten the safety of airport personnel and airline passengers and can have a negative impact on airport logistics and operations.

A. Legal Basis

6. Authority for issuance of this item is contained in sections 4(i), 303(r), and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 303(r), and 403.

B. Description and Estimate of the Number of Small Entities to Which the Proposed Rules Will Apply

7. Pursuant to 5 U.S.C. 603(b)(3), the RFA directs agencies to provide a description of and, where feasible, an estimate of the number of small entities that may be affected by the proposed rules, if adopted. The RFA generally defines the term "small entity" as having the same meaning as the terms "small business," "small organization," and "small governmental jurisdiction." *Id.* In addition, according to 5 U.S.C. 601(3), the term "small business" has the same meaning as the term "small business concern" under the Small Business Act. A small business concern is one that: (1) Is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the SBA at 5 U.S.C. 632. Pursuant to 5 U.S.C. 601(3), the statutory definition of a small business applies "unless an agency after consultation with the Office

of Advocacy of the SBA, and after opportunity for public comment, establishes one or more definitions of such term which are appropriate to the activities of the agency and publishes such definition(s) in the **Federal Register**." Below, we further describe and estimate the number of small entity licensees and regulatees that may be affected by the rules changes proposed in this *NPRM*.

8. The SBA has developed a small business size standard for airport operations within the two broad economic census categories of "Air Traffic Control" and "Other Airport Operations." *See* 13 CFR 121.201, NAICS codes 488111 and 488119. Under both categories, the SBA deems a business to be small if it has average annual receipts of seven million dollars or less. For the census category of Airport Operations, Census Bureau data for 2007 show that there were 1,075 firms in this category that operated for the entire year. Of this total, 899 had annual revenue of less than five million dollars, and 74 had annual revenue between five and ten million dollars. Thus, under this category and associated small business size standard, the majority of firms can be considered small.

9. Some of the rules proposed herein may also affect small businesses that manufacture aviation radio equipment. The Commission has not developed a definition of small entities applicable to aviation radio equipment manufacturers. Therefore, the applicable definition is that for Radio and Television Broadcasting and Wireless Communications Equipment Manufacturers. The Census Bureau defines this category as follows: "This industry comprises establishments primarily engaged in manufacturing radio and television broadcast and wireless communications equipment. Examples of products made by these establishments are: Transmitting and receiving antennas, cable television equipment, GPS equipment, pagers, cellular phones, mobile communications equipment, and radio and television studio and broadcasting equipment." The SBA has developed a small business size standard for Radio and Television Broadcasting and Wireless Communications Equipment Manufacturing, which is: All such firms having 750 or fewer employees. *See* 13 CFR 121.201, NAICS codes 334220. For this category of manufacturers, Census data for 2007, which supersedes the similar data in the 2002 Census, show that there were 398 such establishments that operated that year. Of those 398 establishments, 393 (approximately

¹ *See* 5 U.S.C. 603(a).

² *Id.*

99%) had fewer than 1,000 employees and 912 (approximately 97%) had fewer than 500 employees. Between these two figures, the Commission estimates that about 915 establishments (approximately 97%) had fewer than 750 employees and, thus, would be considered small under the applicable SBA size standard. Accordingly, the majority of establishments in this category can be considered small under that standard.

C. Description of Projected Reporting, Recordkeeping, and Other Compliance Requirements for Small Entities

10. The rule changes under consideration in the *NPRM* would require manufacturers to meet certain criteria and potential users to operate the equipment as prescribed in the rules. We believe the proposed rules would have no other significant effect on the compliance burdens of regulatees. We invite comment on our tentative conclusion that the possible rule changes will not have a negative impact on small entities, or for that matter any entities, and do not impose new compliance costs on any entity. To the extent that commenters believe that any of the above possible rule changes would impose a new reporting, recordkeeping, or compliance burden on small entities, we ask that they describe the nature of that burden in some detail and, if possible, quantify the costs to small entities.

D. Steps Taken To Minimize Significant Economic Impact on Small Entities and Significant Alternatives Considered

11. The RFA requires an agency to describe any significant alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives: (1) The

establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance or reporting requirements under the rule for small entities; (3) the use of performance, rather than design, standards; and (4) an exemption from coverage of the rule, or any part thereof, for small entities.³

12. We hereby invite interested parties to address any or all of these regulatory alternatives and to suggest additional alternatives to minimize any significant economic impact on small entities. Any significant alternative presented in the comments will be considered.

E. Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rules

13. None.

III. Ordering Clauses

14. Pursuant to sections 1, 4(i), 303(f), 303(g), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i), 303(f), 303(g), and 303(r), this *Notice of Proposed Rule Making Is Adopted*.

15. The Commission's Consumer and Governmental Affairs Bureau, Reference Information Center, SHALL SEND a copy of this *Notice of Proposed Rule Making*, including the Initial Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the Small Business Administration.

16. Pursuant to sections 4(i), 302, and 303(e), of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 302, and 303(e), and § 1.3 of the

³ 5 U.S.C. 603(c)(1)–(4).

Commission's rules, 47 CFR 1.3, the Request for Waiver filed by Trex Enterprises Corporation on November 3, 2010, *Is Granted In Part and Denied In Part* to the extent set forth above. This action is effective upon release of the *Order*.
