Those users who elect to participate in MySites will be able to publish additional personal information, such as personal photographs, information about their family status (such as whether they are married or have children), their hobbies, subject matter areas of Commission business about which they are knowledgeable, personal activities, notes, messages and other content. Also, the Internal Electronic Collaboration Tools will contain documents in electronic form covered by other CFTC Privacy Act System of Record Notices.

PURPOSE(S):

The purpose of the new system of records is to enhance and improve efficiencies in the dissemination and exchange of information within the Commission and allow colleagues to connect with each other. The internal electronic collaboration tools, utilizing the Microsoft SharePoint platform, will upgrade the Commission's intranet, allow users to set up team collaboration workspaces, facilitate sharing of documents, policies and information, and allow limited social networking through the SharePoint "MySites" feature. The new intranet will include Commission policies, procedures, forms, organization charts, news clips, links to other sites that are helpful for staff members, and links to other CFTC SharePoint sites containing shared documents and other information. The intranet will include content regarding program offices, services and support, and projects and activities. By connecting to a CFTC network administration database, the intranet will display a directory of all CFTC users, including titles, contact information and the photograph used for CFTC credentials for all employees, interns, volunteers, consultants and contractors (collectively "users"). The MySites feature will allow CFTC users to set up a personal profile, upload pictures, and publish content and messages that are similar to email. MySites also allows users to join groups, connect with colleagues and receive a newsfeed when new information is posted.

The information in this system will be routinely used by CFTC users to disseminate and share information, collaborate and communicate with each other with the goal of more efficiently conducting Commission business. Also, the Internal Electronic Collaboration Tools system will contain documents in electronic form covered by other System of Record Notices, and the routine uses for those System of Record Notices apply. In addition, information in this system may be disclosed in accordance with the blanket routine uses that appear in the Commission's Privacy Act Systems of Records Notices, see, *e.g.*, 76 FR 5974 (Feb. 2, 2011).
