

a brief summary of the argument, and a table of authorities cited. Further, we request that parties submitting written comments provide the Department with a diskette containing an electronic copy of the public version of such comments.

We intend to issue the final results of this administrative review, including the results of our analysis of issues raised in the written comments, within 120 days of publication of these preliminary results in the **Federal Register**.

Assessment Rates

The Department shall determine, and CBP shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we calculated an importer-specific assessment rate for these preliminary results of review. We divided the total dumping margins for the reviewed sales by the total entered value of those reviewed sales for the importer. We will instruct CBP to assess the importer-specific rate uniformly, as appropriate, on all entries of subject merchandise made by the relevant importer during the POR. See 19 CFR 351.212(b). The Department intends to issue instructions to CBP 15 days after the publication of the final results of review.

The Department clarified its “automatic assessment” regulation on May 6, 2003. See *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003) (*Assessment of Antidumping Duties*). This clarification will apply to entries of subject merchandise during the POR produced by DSM for which DSM did not know its merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries of DSM-produced merchandise at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction. See *Assessment of Antidumping Duties* for a full discussion of this clarification.

Cash-Deposit Requirements

The following deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of steel plate from Korea entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(2)(C) of the Act: (1) The cash-deposit rate for DSM will be the rate established in the final results of this review; (2) for previously reviewed or investigated companies not listed above, the cash-deposit rate will continue to be the company-specific rate published for the most recent period;

(3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value investigation but the manufacturer is, the cash-deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; (4) if neither the exporter nor the manufacturer has its own rate, the cash-deposit rate will be 0.98 percent,¹ the all-others rate established in the less-than-fair-value investigation, adjusted for the export-subsidy rate in the companion countervailing duty investigation. This deposit requirement, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

These preliminary results of administrative review are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: January 9, 2012.

Paul Piquado,

Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*) and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The applicant is requesting a five-year permit to film gray and killer whales in the eastern Aleutian Islands, primarily near Ikatan Bay and along the Ikatan Peninsula on the south side of Unimak Island, Alaska. The purpose of the project is to document killer whales hunting gray whales migrating through False Pass and Unimak Pass. In addition, the filmmaker hopes to document the behavior of marine animals in the presence of a gray whale carcass. Filming would occur between April and June of each year. A maximum of 35 killer whales and 10 gray whales could be closely approached annually. Footage would be obtained from vessel-mounted cameras, a polecam that would be submerged next to the boat, and, as the opportunity arises, from a remotely operated video camera in an underwater housing placed on the sea floor near a gray

whale carcass. The applicant would share footage with the scientific community as it may reveal to what extent killer whales continue to feed on submerged kills, how they feed on these carcasses, and document what other animals may benefit from these carcasses as well. Footage would be used for a television program about predators and the challenges they face.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.
