SUPPLEMENTARY INFORMATION:

Background: NIC's Jail Resource Management course is a 3-day training program that focuses on the resource needs of the jail, development and presentation of a budget request, management of the budget, and identification of alternate funding options. This 3-day program is held in regions throughout the county.

Program participants are primarily sheriffs and administrators from smaller jails who have no specialized fiscal management staff. Most have no formally established mechanisms to identify, document, track, justify, or present resource needs. As a result, their jails often receive budget allocations that are inadequate to maintain a safe and secure jail.

NIC wishes to update the content of Jail Resource Management and ensure its design conforms to the ITIP model. The following reference materials are posted with this announcement on NIC's Web site: Jail Resource Management: Lesson Plans; Jail Resource Management: Participant Manual; Jail Resource Management: Presentation Slides; Jail Resource Management: Activities.

Scope of Work: The cooperative agreement awardee will revise the content of the current program to ensure it is current, accurate, and relevant. The awardee also will ensure that module sequencing is logical and enhances the flow of the program. Finally, the awardee will revise the program's design to conform to the ITIP model. The awardee will ensure that content, module sequencing, and instructional strategies effectively contribute to meeting the program's goal. To achieve this, the awardee will complete the following activities, at a minimum.

Initial Meeting: The cooperative agreement awardee, with subject matter expert and the curriculum specialist, will attend an initial meeting with the NIC staff for a project overview and preliminary planning. This will take place shortly after the cooperative agreement is awarded. The meeting will last up to one half day and will be conducted via Web conferencing.

Initial curriculum review: The awardee will review and become
