Abstract of Proposed Collection

The information collected from the individuals is specifically used to conduct screening to ensure that State funded activities are not purposefully or inadvertently used to provide support to entities or individuals deemed to be a risk to national security.

Methodology

The State Department, at the direction of the Congress in the FY 2010 Department of State, Foreign Operations, and Related Programs Appropriations Act, carried forward in the FY 2011 Continuing Resolution, is implementing a Risk Analysis and Management Program to vet potential contractors and grantees to mitigate the risk that foreign assistance funds might benefit terrorists or their supporters. To conduct this vetting program the Department envisions collecting information from contractors, sub-contractors, grantees and sub-grantees regarding their directors, officers or key employees. The information collected will be compared to information gathered from commercial, public, and U.S. government databases to determine the risk that the applying organization, entity or individual might divert Department funds to terrorist entities.

Deputy Assistant Secretary, Bureau of Administration, Office of Logistics Management, Department of State.
