December 1, 2011, the Union Pacific Railroad (UP) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 229.129(c)(7), requiring cab-mounted horns to be tested with microphones at 4 feet above the height of the rail. FRA assigned the petition Docket Number FRA–2011–0102.

UP’s request follows a similar CSX Transportation (CSX) waiver request that was approved by FRA. In its waiver request (Docket Number FRA–2007–28612), CSX requested permission to test cab-mounted horns at 15 feet due to the effects of the acoustic shadows and ground reflection on the measurements when using a microphone at the 4-foot height. CSX also provided documentation of a study that clearly demonstrated the effects of acoustic shadows and ground reflection on testing cab-mounted locomotive horns at the 4-foot height, compared to the 15-foot height. CSX also provided the effects of the acoustic shadows and ground reflection on the measurements when using a microphone at the 4-foot height. CSX also provided documentation of a study that clearly demonstrated the effects of acoustic shadows and ground reflection on testing cab-mounted locomotive horns at the 4-foot height, compared to the 15-foot height. In the December 21, 2007, decision letter (FRA–2007–28612–0004), FRA granted CSX permission to test cab-mounted horns at the 15-foot height.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

[Docket ID PHMSA–2012–0004]

**Pipeline Safety: Random Drug Testing Rate**

**AGENCY:** Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

**ACTION:** Notice of Minimum Annual Percentage Rate for Random Drug Testing.

**SUMMARY:** PHMSA has determined that the minimum random drug testing rate for covered employees will remain at 25 percent during calendar year 2012.

**DATES:** Effective January 1, 2012, through December 31, 2012.

**FOR FURTHER INFORMATION CONTACT:**

Stanley Kastanas, Program Manager, Substance Abuse Prevention Program, PHMSA, U.S. Department of Transportation, telephone (202) 550–0629 or email stanley.kastanas@dot.gov.

**SUPPLEMENTARY INFORMATION:** Operators of gas, hazardous liquid, and carbon dioxide pipelines and operators of liquefied natural gas facilities must select and test a percentage of covered employees for random drug testing. Pursuant to 49 CFR 199.105(c)(2), (3), and (4), the PHMSA Administrator’s decision on whether to change the minimum annual random drug testing rate is based on the reported random drug test positive rate for the pipeline industry. The data considered by the Administrator comes from operators’ annual submissions of Management Information System (MIS) reports required by 49 CFR 199.119(a). If the reported random drug test positive rate is less than one percent, the Administrator may continue the minimum random drug testing rate at 25 percent. In 2010, the random drug test positive rate was less than one percent. Therefore, the minimum random drug testing rate will remain at 25 percent for calendar year 2012.

On January 19, 2010, PHMSA published an Advisory Bulletin (75 FR 2926) implementing the annual collection of contractor MIS drug and alcohol testing data. All applicable §§ 199.119 (drug testing) and 199.229 (alcohol testing) MIS reporting operators are responsible for the submission of all contract MIS reports to PHMSA, as well as their own, by March 15, 2012.

Contractors with employees in safety-sensitive positions who performed, as defined in §199.3 of 49 CFR Part 199, covered functions, must submit these reports only through the auspices of each operator for whom these covered employees performed those covered functions (i.e., maintenance, operations or emergency response).

Issued in Washington, DC on January 6, 2012.

Jeffrey D. Wiese,
Associate Administrator for Pipeline Safety.

Background

On December 3, 1999, the Kingpin Act was signed into law by the President of the United States. The Kingpin Act provides a statutory framework for the President to impose sanctions against significant foreign narcotics traffickers and their organizations on a worldwide basis, with the objective of denying their businesses and agents access to the U.S. financial system and to the benefits of trade and transactions involving U.S. persons and entities.

The Kingpin Act blocks all property and interests in property, subject to U.S. jurisdiction, owned or controlled by significant foreign narcotics traffickers as identified by the President.
