eliminate the need for CBP personnel to manually enter vehicles to search for contraband. As a result, LEXRIS will increase the safety of CBP personnel.

The draft PEA addresses the potential impacts from the installation and operation of LEXRIS at various CBP operational areas throughout the United States for the purpose of conducting non-intrusive inspections. Evaluations were conducted on various resources present at operational areas, including: climate, soils, water quality, air quality, vegetation, wildlife, noise, infrastructure, aesthetics, and radiological health and safety.

Next Steps

This process is being conducted pursuant to the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 et seq.), the Council on Environmental Quality Regulations for Implementing the NEPA (40 CFR parts 1500–1508), and Department of Homeland Security Directive 023–01, Environmental Planning Program, (April 19, 2006).

Substantive comments concerning environmental impacts received from the public and agencies during the comment period will be evaluated to determine whether further environmental impact review is needed in order to complete the Final PEA. The Final PEA will be made available to the public through a Notice of Availability in the Federal Register.

Should CBP determine, after review of the comments, that the implementation of the proposed action would not have a significant impact on the environment, it will prepare a Finding of No Significant Impact (FONSI), and a Notice of Availability of the FONSI for publication in the Federal Register.

Should CBP determine that significant environmental impacts exist due to the action, CBP will prepare a Notice of Intent (NOI) to prepare an Environmental Impact Statement (EIS) for publication in the Federal Register.

Comment Request for Information Collection for a Three-Year Extension of the Labor Exchange Reporting System (LERS), Extension With Revisions

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: The Department of Labor (Department), as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, the Employment and Training Administration (ETA) is soliciting comments concerning LERS, Office of Management and Budget (OMB) Control No. 1205–0240], which facilitates performance reporting for the Wagner-Peyser Act funded public employment service activities through the ETA 9002 reports and for the jobs for Veterans’ State grants’ activities through the Veterans’ Employment and Training Services (VETS) 200 reports. The current expiration date is March 31, 2012. A copy of the proposed information collection request can be obtained by contacting the office listed below in the addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the addresses section below on or before March 19, 2012.

ADDRESSES: Submit written comments to Karen Staaha, Office of Policy Development and Research, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Room N–5641, Washington, DC 20210. SUPPLEMENTARY INFORMATION:

I. Background

Each quarter, states and territories submit data on individuals and employers who receive core employment and workforce information services through the public labor exchange and employment services and the Jobs for Veterans’ state grants in the states’ One-Stop delivery systems. These data—submitted to the Department via the ETA 9002 and VETS 200 reports—are used by ETA and VETS to evaluate performance and delivery of labor exchange and employment services within the One-Stop delivery system.

ETA and VETS use the data to track total participants, aggregate information about characteristics, services and outcomes of job seeker customers. Additionally, ETA and VETS analyze the data to determine the delivery of core labor exchange services; to study performance outcomes vis-à-vis performance measures, and state policies and procedures; and to help drive the workforce investment system toward continuous improvement of outcomes and integrated service delivery. Within ETA, the data are used by the Office of Workforce Investment, the Office of Unemployment Insurance, the Office of Financial and Administrative Management, the Office of Policy Development and Research, and the Office of Regional Management (including the regional offices). Other Departmental users include the Office of the Assistant Secretary for Employment and Training and the Office of the Assistant Secretary for Policy.

The reports and other analyses of the data are made available to the states, members of Congress, veterans’ organizations, research firms and others needing information on public employment and workforce information services. Information about labor exchange and employment services for veterans are provided to Congress to meet VETS reporting requirements codified in Title 38 of the United States Code (U.S.C.).

Currently, LERS is the only mechanism for collecting performance information on Wagner-Peyser Act funded and Jobs for Veterans’ State grants. As such, this set of reports is necessary for tracking and reporting to stakeholders data on the usage and performance of these programs. More specifically, these reports are used to monitor the core purpose of the program—mainly, tracking how many people found jobs; did people stay employed; and what were their earnings.
