SUPPLEMENTARY INFORMATION: The Department of Housing and Urban Development will submit the proposed extension of information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended). This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Choice Neighborhoods Evaluation, Phase I.

OMB Control Number: Pending.

Description of the Need for the Information and Proposed Use: HUD is

conducting an evaluation of the Choice Neighborhoods Initiative, focused on the initial round of grants funded in August 2011. This evaluation requires the collection of information from households living in the Choice Neighborhoods sites. This proposed information collection will support the first phase of the evaluation, which is focused on studying implementation of the grants and establishing a baseline for long-term evaluation of program outcomes. The information collection is necessary to understand the experience of the residents in the Choice Neighborhood sites.

Agency Form Numbers: None.

Members of the Affected Public: This information collection request will affect residents in assisted and unassisted housing in each of the sites. We will use a longitudinal resident tracking survey to examine resident outcomes over time. To monitor outcomes for assisted housing residents, the research team proposes conducting a multi-wave survey that tracks a representative sample of the original assisted housing residents during implementation and revitalization of the site. The survey will track outcomes of interest, including housing location and quality; and resident physical and mental health, safety, employment, and education.

To assess the outcomes of assisted residents, we will sample from the public housing developments at each site, including residents at the time of

the survey as well as residents who relocated during 2012. We will oversample special populations (e.g., disabled, seniors, large families, or limited English proficiency households) when appropriate. Our research design calls for the collection of a random sample at the Chicago and New Orleans sites, and assumes 250 completed surveys. At the Boston site we will obtain 100 completed surveys (i.e., as complete coverage as possible of the occupied units, with no oversampling). In the event that funding becomes available to support a survey of assisted residents at the Seattle and San Francisco sites, we will obtain 250 completed surveys at each site.

To allow for comparisons between assisted-households in units that will be transformed by the CNI and those in the neighborhood, the content of the unassisted resident survey and the assisted-resident will be as similar as possible. Part of this task will be to define the appropriate neighborhood boundary for the survey. Our goal is to have a minimum of 250 completed interviews with unassisted residents, with a larger sample in sites with bigger neighborhoods. Units will be drawn from a random sample of housing units in the defined neighborhood.

Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The following chart details the respondent burden:

	Assisted households	Other households	Total households	Hours per response	Total hours
New Orleans	250	250	500	.75	375
Chicago	250	250	500	.75	375
Boston	100	250	350	.75	262.5
Seattle	250	250	500	.75	375
San Francisco	250	250	500	.75	375
Total	1,100	1,250	2,350	.75	1,762.5

Status of the proposed information collection: Pending OMB approval.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: January 10, 2012.

Raphael W. Bostic,

Assistant Secretary for Policy Development and Research.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5415-FA-35]

Announcement of Funding Awards for the Rural Innovation Fund Program for Fiscal Year 2010

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Announcement of funding awards.

SUMMARY: In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development

Reform Act of 1989, this announcement notifies the public of funding decisions made by the Department in a competition for funding under the Notice of Funding Availability (NOFA) for the Fiscal Year (FY) 2010 Rural Housing and Economic Development Program. This announcement contains the names of the awardees and the amounts of the awards made available by HUD.

FOR FURTHER INFORMATION CONTACT:

Valerie Piper, Deputy Assistant Secretary for Economic Development, Office of Community Planning and Development, Department of Housing and Urban Development, 451 Seventh

Street SW., Room 7136, Washington, DC 20410-7000; telephone number (202) 402-4091 (this is not a toll free number). Hearing- and- speech impaired persons may access this number via TTY by calling the Federal Relay Service toll-free at 1-(800) 877-8339. For general information on this and other HUD programs, call Community Connections at 1-(800) 998-9999 or visit the HUD Web site at <http://www.hud.gov>.

SUPPLEMENTARY INFORMATION: The Rural Innovation Fund program was authorized by the Consolidated Appropriations Act, 2010, Public Law 111-117. The Rural Innovation Fund NOFA was posted on Grants.gov on December 22, 2010, and announced in the **Federal Register** on January 4, 2011 (76 FR 375). Applications were rated and selected for funding on the basis of selection criteria contained in that NOFA.

The Catalog of Federal Domestic Assistance (CFDA) number for Rural Innovation Fund program is 14.263. The purpose of the Rural Innovation Fund is

to provide support for highly targeted and innovative grants dedicated to addressing the problems of concentrated rural housing distress and community poverty for projects that demonstrate a great likelihood of substantial impact in addressing the housing needs and community poverty in the project area. Eligible applicants are local rural nonprofit organizations, community development corporations, federally recognized Indian tribes, state housing finance agencies (HFAs), and state economic development and community development agencies (including consortia of such entities) with demonstrated capacity to undertake comprehensive projects that address the problems of concentrated rural housing distress and community poverty.

The funds made available under this program were awarded competitively, through a NOFA selection process conducted by HUD. Approximately \$25 million was made available under the Consolidated Appropriations, 2010, in Rural Innovation grant funds, along with unobligated and unused funds

remaining for the Rural Fund's predecessor program, the Rural Housing and Economic Development (RHED) program appropriated by the Department of Housing and Urban Development Appropriations Act, 2009, and prior appropriations Acts. For the Fiscal Year 2010 competition, a total of \$31,355,236 was awarded to 51 projects nationwide.

In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989 (103 Stat. 1987, 42 U.S.C. 3545), the Department is publishing the grantees and amounts of the awards in Appendix A to this Notice. A description of the projects, activities or undertakings of each award is provided in Appendix B to this Notice.

Dated: January 11, 2012.

Valerie Piper,

Deputy Assistant Secretary for Economic Development.

Alaska

The Atmautluak Traditional Council in Atmautluak, Alaska will receive a Rural Innovation Fund Indian Economic Development and Entrepreneurship grant in the amount of \$798,888 to launch the Pikat Housing Development Company Project (Pikat Project), which will address the need for sustainable, permanent jobs by developing energy-efficient, culturally-informed, and healthy housing for low- and very-low income residents in the Village of Atmautluak. The Pikat Project will form the for-profit business Pikat Housing Development Company (PHD COMPANY) to construct two prototype homes that can then be duplicated in Atmautluak and the surrounding villages by PHD Company (PHDC). This will create more job opportunities as PHDC grows. In partnership with the Cold Climate Housing Research Center (CCHRC), the Pikat Project will use a hands-on approach to build the capacity of the tribal government staff and local construction workforce. The tribe has a trained construction workforce with experience in conventional construction techniques but lacks training in green, energy-efficient new construction. Leveraging for this project is \$507,202 from CCHRC and Atmautluak Limited.

Contact Person: Mr. Daniel Waska.

Grantee Address: Village of Atmautluak, PO Box 6568, Atmautluak, AK 99559-6568.

Telephone Number: (907) 553-5610.

Email Address:
atmautluaktc@hughes.net.

The Organized Village of Kake in Kake, Alaska will receive a Rural Innovation Fund Indian Economic Development and Entrepreneurship grant in the amount of \$567,908 that will be used to provide small business development assistance to start-up oyster and geoduck farmers. Shellfish aquaculture shows strong promise to provide expanded private sector employment and revenue to rural Southeast Alaska, which has been devastated in recent years with

outmigration of jobs and residents. The Southeast Alaska Mariculture Business Development Project will offer business development technical assistance and capacity building services to existing and start-up mariculture businesses in the Kake, Naukati, Hoonah and Angoon areas. All of these communities are located in economically distressed rural areas with less than 2,500 inhabitants. Services include a shellfish business incubator, mariculture small farmer apprenticeship program, and a mariculture equipment revolving loan fund for provision of essential equipment to create small shellfish farms. Key partners for the project include AK Shellfish Growers Assoc.; Univ. of Southeast AK Marine Advisory Program; Univ. of AK Center for Economic Development; AK Oyster Cooperative and Rural Community Assistance Corp. Leveraging for this project is \$224,741.

Contact Person: Mr. Gary Williams.

Grantee Address: Organized Village of Kake, P.O. Box 316, Kake, AK 99830-0316.

Arizona

Nogales Community Development (NCD) in Nogales, Arizona will receive a Rural Innovation Fund Comprehensive grant in the amount of \$1,999,177 to revitalize the downtown core of the rural colonia while helping low-income residents build assets to move out of poverty. These goals will be achieved through three primary activities. First, NCD will develop a multi-use training and resource center to provide residents with self-sufficiency services and spur revitalization of historic downtown buildings. Second, NCD will provide services including rental housing rehab, foreclosure mitigation, housing counseling and financial literacy, business development, and education, including scholarships for higher education. Other self sufficiency supports include citizenship classes,

developing community gardens, public health education, and access to transportation and child care. Third, NCD will create a comprehensive continuum of services referral system that bundles client housing, business, public health and education services with a program that trains and deploys lay community workers to link residents with services. This project will create at least 100 jobs and rehabilitate 10 housing units. NCD will partner with Mariposa Community Health Center, University of Arizona (Santa Cruz County), Santa Cruz County Provisional Community College Board, Southwest Fair Housing Council, Primeria Alta Historical Society, Nogales Public Housing Authority, and Citi Bank. Leveraging for this project is \$1,000,743.

Telephone Number: (520) 287-3631.

Email Address: bbracker@mchsi.com.

Elfrida Citizens Alliance, Inc (ECA) in Elfrida, Arizona will receive a Rural Innovation Fund Single Purpose grant in the amount of \$300,000 to address substandard housing conditions, economic distress and lack of access to affordable capital by promoting sustainable energy-efficient housing, businesses, and community facilities. ECA will provide technical assistance to small businesses and homeowners to develop, finance, and build energy-efficiency projects or renewable energy facilities and leverage funds from utility rebates and USDA's Renewable Energy America Program. ECA will construct 14 commercial projects, replace 3 substandard homes, and provide training in installation of solar photovoltaic panels. Permanent financing secured by businesses and homeowners will repay the RIF construction loans, which will capitalize a revolving loan fund to provide construction financing for small businesses to develop and build renewable energy facilities or to make

energy-efficiency improvements, affordable financing for businesses, and construction loans to upgrade substandard homes. Partners include Sulphur Springs Valley Electric Cooperative and Southeastern Arizona Governments Organization's Pathways Out of Poverty Program. Leveraging for this project is \$150,000.

Endangered and Threatened Wildlife and Plants; Recovery Plan for Hawaiian Waterbirds, Second Revision

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce the availability of the final approved Recovery Plan for Hawaiian Waterbirds, Second Revision. The recovery plan addresses four endangered bird species. This plan includes recovery objectives and criteria, and specific recovery actions necessary to achieve downlisting and delisting of the species and their removal from the Federal List

of Endangered and Threatened Wildlife and Plants.

ADDRESSES: An electronic copy of the recovery plan is available at <http://www.fws.gov/endangered/species/recovery-plans.html> and <http://www.fws.gov/pacific/ecoservices/endangered/recovery/plans.html>. Copies of the recovery plan are also available by request from the U.S. Fish and Wildlife Service, Pacific Islands Fish and Wildlife Office, 300 Ala Moana Boulevard, Room 3–122, Box 50088, Honolulu, HI 96850 (telephone: (808) 792–9400).

FOR FURTHER INFORMATION CONTACT: Annie Marshall, Fish and Wildlife Biologist, at the above Honolulu address.

SUPPLEMENTARY INFORMATION: We announce the availability of the approved Recovery Plan for Hawaiian Waterbirds, Second Revision. The recovery plan addresses the following four bird species listed as endangered: Hawaiian duck or koloa maoli (*Anas wyvilliana*), Hawaiian coot or alae keokeo (*Fulica alai*), Hawaiian common moorhen or alae ula (*Gallinula chloropus sandvicensis*), and Hawaiian stilt or aeo (*Himantopus mexicanus knudseni*).

Background

Recovery of endangered or threatened animals and plants is a primary goal of the Endangered Species Act (Act) (16 U.S.C. 1531 *et seq.*) and our endangered species program. Recovery means improvement of the status of listed species to the point at which listing is no longer required under the criteria set out in section 4(a)(1) of the Act. Recovery plans describe actions considered necessary for the conservation of listed species, establish criteria for downlisting or delisting, and estimate time and cost for implementing the measures needed for recovery.

The Act requires the development of recovery plans for endangered or threatened species unless such a plan would not promote the conservation of the species. Section 4(f) of the Act requires that public notice, and an opportunity for public review and comment, be provided during recovery plan development. A recovery plan for these four waterbirds was first published in 1978, and the first revision of the recovery plan was published in 1985. A draft of the second revision to the recovery plan was made available for public comment from July 9 through September 7, 1999 (64 FR 37148). However, that draft was never finalized. From August 24 through October 24, 2005, we made a second draft of the
