competitive products represented 5.54 percent of total institutional costs.\(^3\) The contribution from competitive products to the recovery of the Postal Service’s institutional costs was 6.78 percent in FY 2009 and 7.12 percent in FY 2010.\(^4\)

In FY 2009 and FY 2010, institutional costs were reduced compared with previous years, due in part to the congressionally mandated reductions of the required annual contribution to the Retirement Health Benefits Fund. The Postal Service also has increasingly exercised its flexibility to transfer mail volume from market dominant products to competitive products. See 39 U.S.C. 3642.

On December 29, 2011, the Postal Service filed its 2011 Annual Compliance Report with the Commission. That report indicates that in FY 2011 competitive products collectively contributed 7.84 percent of the Postal Service’s institutional costs.\(^5\)

II. Invitation To Comment

The Commission invites comments to facilitate its examination of the appropriateness of the current contribution level. To inform its deliberations, the Commission requests comments from interested members of the public on whether and how changes in competitive market conditions, the allocation of costs to competitive products, the number and volume of competitive products, or any other changes should impact the minimum appropriate share of institutional costs of the Postal Service that should be provided by competitive products. As required by the statute, the Commission in making its determination must consider all relevant circumstances, including the prevailing competitive conditions in the market, and the degree to which any costs are uniquely or disproportionately associated with any competitive products. Comments also are welcome on any issues relevant to the reasonableness of the current 5.5 percent contribution requirement and retaining, modifying, or eliminating it.

Comments are due March 5, 2012. Reply comments may be submitted on or before April 2, 2012.

Pursuant to 39 U.S.C. 505, R. Kevin Harle is designated as the officer of the Commission to represent the interests of the general public (Public Representative). The Public Representative will direct the activities of Commission personnel assigned to him and, upon request, will provide their names for the record. Neither the Public Representative nor any of the assigned personnel will participate in or provide advice on any Commission decision in this proceeding.

III. Ordering Paragraphs

It is ordered:

2. The Commission designates R. Kevin Harle as the Public Representative representing the interests of the general public in this proceeding.
3. Comments are due March 5, 2012.
4. Reply comments are due April 2, 2012.
5. The Secretary shall arrange for publication of this notice in the Federal Register.

By the Commission.
Shoshana M. Grove,
Secretary.

BILLING CODE 6560–50–P
SUMMARY: The EPA is announcing the extension of the public comment period for the EPA’s responses to state and tribal ozone designation recommendations for the 2008 Ozone National Ambient Air Quality Standards. The EPA sent the responses directly to the states and tribes on or about December 9, 2011. On December 20, 2011 (76 FR 78872, FRL–9608–6), the EPA published a notice in the Federal Register that the EPA had posted the responses on its Internet Web site and the EPA invited public comment. In the notice, the EPA stated that public comments must be received on or before January 19, 2012. The EPA has received several requests from stakeholders for additional time to prepare their comments. Some of the requesters noted that the original 30-day comment period fell across two federal holidays. Taking that into consideration, the EPA is extending the comment period until February 3, 2012. The EPA intends to make final designation determinations for the 2008 ozone standards in spring 2012.

DATES: Comments must be received on or before February 3, 2012. Please refer to SUPPLEMENTARY INFORMATION for additional information on the comment period.

Defense Federal Acquisition Regulation Supplement: Order of Application for Modifications

ACTION: Proposed rule.
SUMMARY: DoD is proposing to amend the Defense Federal Acquisition Regulation Supplement to establish an order for application of contract modifications to resolve any potential conflicts that may arise from multiple modifications with the same effective date.

SUPPLEMENTARY INFORMATION:
I. Background
The Defense Federal Acquisition Regulation Supplement (DFARS) subpart 204.70, Uniform Procurement Instrument Identification Numbers, prescribes numbering procedures for contract modifications and the Federal Acquisition Regulation (FAR) part 43.1, General, prescribes rules for determining the effective date. There are no rules to describe in what order to apply modifications to determine the actual content of a resulting modified contract. In order to determine the sequence of modifications to a contract or order, a method for determining the order of application for modifications is needed to resolve any conflict arising from multiple modifications with the same effective date. As such, this rule proposes to add DFARS text at 204.7007, Order of Application for Modifications, to resolve any potential inconsistency.

II. Executive Orders 12866 and 13563
Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act
DoD does not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because this rule only affects the internal operating processes of DoD by clarifying an order of application for contract modifications, and it does not have an economic impact on contractors. However, an initial regulatory flexibility analysis has been performed and is summarized as follows:

The objective for this case is to provide a set of rules to the contracting officer to resolve any potential conflict from multiple modifications with the same effective date. The changes
