SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 9, 2011 (76 FR 26900), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2011-0232, which is available for public viewing online at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue NW., Washington, DC The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov> to either submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. Title: NESHAP for Metal Coil Surface Coating Plants (Renewal).

ICR Numbers: EPA ICR Number 1957.06, OMB Control Number 2060-0487.

ICR Status: The National Emission Standards for Hazardous Air Pollutants

(NESHAP) for Metal Coil Surface Coating Plants were proposed on July 18, 2000, promulgated on June 10, 2002, and amended on March 17, 2003. These standards apply to each facility operating a coil coating line and that is a major source of hazardous air pollutants (HAPs). This coil coating line is a process and the collection of equipment used to apply an organic coating to the surface of a metal coil that is less than 0.15 millimeters (0.006 inches) thick.

Abstract: Owners or operators must submit notification reports upon construction or reconstruction of any metal coil surface coating plant. Semiannual reports for periods of operation during which the emission limitation has exceeded, or reports certifying that no exceedances have occurred, also are required. Owners and operators must submit notification reports upon the construction, reconstruction, or modification of any metal coil surface coating plant. Also, required is a one-time-only initial notification for new and reconstructed sources. Owners or operators of metal coil surface coating plants subject to the rule must maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart SSSS, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA's regulations listed in 40 CFR part 9 and 48 CFR chapter 15, are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information estimated to average 119 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose and provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying

information, processing and maintaining information, and disclosing and providing information. All existing ways will have to adjust to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Metal coil surface coating plants.

Estimated Number of Respondents: 89.

Frequency of Response: Initially, weekly, annually, semiannually, and occasionally.

Estimated Total Annual Hour Burden: 19,901.

Estimated Total Annual Cost: \$1,618,874, which includes \$1,615,226 in labor costs, \$0 in capital/startup costs, and \$3,648 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden. However, there is an increase in the total labor and Agency costs as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The change in cost estimates reflects updated labor rates available from the Bureau of Labor Statistics.

Director, Collection Strategies Division.

Title: Identification, Listing and Rulemaking Petitions (Renewal).

ICR numbers: EPA ICR No. 1189.24, OMB Control No. 2050-0053.

ICR Status: This ICR is scheduled to expire on January 31, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Under the authority of the Resource Conservation and Recovery Act of 1976 (RCRA), as amended, Congress directed the U.S. Environmental Protection Agency (EPA) to implement a comprehensive program for the safe management of hazardous waste. In addition, Congress wrote that "[a]ny person may petition the Administrator for the promulgation, amendment or repeal of any regulation" under RCRA (section 7004(a)).

40 CFR parts 260 and 261 contain provisions that allow regulated entities to apply for petitions, variances, exclusions, and exemptions from various RCRA requirements.

Under 40 CFR 260.20(b), all rulemaking petitioners must submit basic information with their demonstrations, including name, address, and statement of interest in the proposed action. Under § 260.21, all petitioners for equivalent testing or analytical methods must include specific information in their petitions and demonstrate to the satisfaction of

the Administrator that the proposed method is equal to, or superior to, the corresponding method in terms of its sensitivity, accuracy, and reproducibility. Under § 260.22, petitions to amend part 261 to exclude a waste produced at a particular facility (more simply, to delist a waste) must meet extensive informational requirements. When a petition is submitted, the Agency reviews materials, deliberates, publishes its tentative decision in the **Federal Register**, and requests public comment. EPA also may hold informal public hearings (if requested by an interested person or at the discretion of the Administrator) to hear oral comments on its tentative decision. After evaluating all comments, EPA publishes its final decision in the **Federal Register**.

Burden Statement: The annual public reporting burden for this ICR is estimated to average 25 hours per response, and the annual recordkeeping burden for this ICR is estimated to average 2 hours per response. Combined, the annual public reporting and recordkeeping burden for this collection of information is estimated to average 26 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Businesses/industries subject to the regulations under 40 CFR Parts 260 and 261.

Estimated Number of Respondents: 2,603.

Frequency of Response: On occasion.
Estimated Total Annual Hour Burden: 68,923.

Estimated Total Annual Cost: \$12,504,987, includes \$9,660,864 annualized O&M costs and \$2,844,124 annualized labor costs.

Changes in the Estimates: There is a decrease of 4,864 hours in the total estimated burden currently identified in

the OMB Inventory of Approved ICR Burdens. This decrease is an adjustment to the existing estimates based on data gathered through consultations with EPA Regional and State offices and the regulated community, not due to program changes.

Regulation of Fuel and Fuel Additives: Modification to Octamix Waiver

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: On February 1, 1988, the Environmental Protection Agency (EPA) conditionally granted a waiver requested by the Texas Methanol Corporation (Texas Methanol) for a gasoline-alcohol fuel, pursuant to section 211(f) of the Clean Air Act.¹ A minor correction was made on May 12, 1988.² A modification to the original conditions was made on October 21, 1988.³ Baker Hughes submitted a request to modify the waiver. The new request seeks approval on an alternative corrosion inhibitor, TOLAD™ MFA-10A, to be used within Texas Methanol's gasoline-alcohol fuel, also known as OCTAMIX. EPA considers this to be a request for modification of the waiver under 211(f) of the Clean Air Act (Act).

DATES: Comments or a request for a public hearing must be received on or before February 21, 2012. EPA does not plan to hold a public hearing on this notice, unless one is requested. If requested by February 6, 2012, a public hearing will be held. If such a hearing is held, comments must be received within 90 days after the date of such hearing.
