

h. *FERC Contact*: Patricia W. Gillis, (202) 502-8735, or patricia.gillis@ferc.gov.

i. Deadline for filing comments, protests, and motions to intervene is 30 days from the issuance date of this notice. All documents may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov/docs-filing/efiling.asp>. The Commission strongly encourages electronic filings. If unable to be filed electronically, documents may be paper-filed. To paper-file, an original and seven copies should be sent to: The Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. Please include the project number (P-11572-001) on any documents or motions filed.

j. *Description of Existing Facilities*: The inoperative project consists of the following existing facilities: (1) A bifurcation attached to the applicant's existing irrigation conduit; (2) a 42-inch-diameter, 100-foot-long penstock; and (3) a powerhouse containing one generating unit with a total capacity of 860 kilowatts.

k. *Description of Proceeding*: The exemptee is currently in violation of Standard Article 1 of its exemption granted on August 28, 1996 (76 FERC ¶ 62,150). Section 4.106 of the Commission's regulations, 18 CFR 4.106, provides, among other things, that the Commission reserves the right to revoke an exemption if any term or condition of the exemption is violated. The project has not operated since 2004 or 2005, when testing determined that the equipment could not operate without significant retro-fit to the underlying irrigation system at a substantial cost. By not operating the project as proposed and authorized, the exemptee is in violation of the terms and conditions of the exemption.

On November 3, 2011, the Commission directed the exemptee to file a plan and schedule for restoring operation to the project or surrendering the exemption. The Commission also informed the exemptee that it was in violation of the terms and conditions of the exemption. The Commission required the exemptee to show cause within 30 days why the exemption should not be revoked. A response was not filed by the exemptee. To date, the

information requested from the exemptee has not been filed and the project remains inoperative.

l. This notice is available for review and reproduction at the Commission in the Public Reference Room, Room 2A, 888 First Street NE., Washington, DC 20426. The filing may also be viewed on the Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the Docket number (P-11572) excluding the last three digits in the docket number field to access the notice. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call toll-free 1-(866) 208-3676 or email FERCOnlineSupport@ferc.gov. For TTY, call (202) 502-8659.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene*—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, 385.211, and 385.214. In determining the appropriate action to take, the Commission will consider all protests filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any protests or motions to intervene must be received on or before the specified deadline date for the particular proceeding.

o. *Filing and Service of Responsive Documents*—Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE," as applicable; (2) set forth in the heading the project number of the proceeding to which the filing responds; (3) furnish the name, address, and telephone number of the person commenting, protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, protests or motions to intervene must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, protests, or motions to intervene should relate to project works which are the subject of the termination of exemption. A copy of any protest or motion to intervene must be served upon each representative of the exemptee specified in item g above. If an intervenor files comments or documents with the Commission relating to the merits of an issue that

may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of all other filings in reference to this notice must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR § 4.34(b) and 385.2010.

p. Agency Comments—Federal, State, and local agencies are invited to file comments on the described proceeding. If any agency does not file comments within the time specified for filing comments, it will be presumed to have no comments.

Dated: January 12, 2012.

Kimberly D. Bose,
Secretary.

Title: NESHAP for Metal Coil Surface Coating Plants (Renewal).

ICR Numbers: EPA ICR Number 1957.06, OMB Control Number 2060-0487.

ICR Status: The National Emission Standards for Hazardous Air Pollutants

(NESHAP) for Metal Coil Surface Coating Plants were proposed on July 18, 2000, promulgated on June 10, 2002, and amended on March 17, 2003. These standards apply to each facility operating a coil coating line and that is a major source of hazardous air pollutants (HAPs). This coil coating line is a process and the collection of equipment used to apply an organic coating to the surface of a metal coil that is less than 0.15 millimeters (0.006 inches) thick.

Abstract: Owners or operators must submit notification reports upon construction or reconstruction of any metal coil surface coating plant. Semiannual reports for periods of operation during which the emission limitation has exceeded, or reports certifying that no exceedances have occurred, also are required. Owners and operators must submit notification reports upon the construction, reconstruction, or modification of any metal coil surface coating plant. Also, required is a one-time-only initial notification for new and reconstructed sources. Owners or operators of metal coil surface coating plants subject to the rule must maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart SSSS, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA's regulations listed in 40 CFR part 9 and 48 CFR chapter 15, are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information estimated to average 119 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose and provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying

information, processing and maintaining information, and disclosing and providing information. All existing ways will have to adjust to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Metal coil surface coating plants.

Estimated Number of Respondents: 89.

Frequency of Response: Initially, weekly, annually, semiannually, and occasionally.

Estimated Total Annual Hour Burden: 19,901.

Estimated Total Annual Cost: \$1,618,874, which includes \$1,615,226 in labor costs, \$0 in capital/startup costs, and \$3,648 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden. However, there is an increase in the total labor and Agency costs as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The change in cost estimates reflects updated labor rates available from the Bureau of Labor Statistics.

John Moses,

Director, Collection Strategies Division.
