

pests or diseases of livestock or poultry. The Animal & Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) is the Agency charged with carrying out the disease prevention mission. This Agency regulates the importation of animals and animal products into the United States to guard against the introduction of exotic animal diseases. Disease prevention is the most effective method for maintaining a healthy animal population and enhancing the United States' ability to compete in exporting animals and animal products. The regulations under which APHIS conducts disease prevention activities are contained in Title 9, Chapter D, parts 91 through 99 of the Code of Federal Regulations.

Need and Use of the Information: APHIS will collect information to ensure that fresh pork and pork products, as well as poultry carcasses, parts, and products transiting the United States from Mexico pose a negligible risk of introducing classical swine fever and END into the United States. APHIS will also collect the name and address of the exporter, the origin and destination points of the commodities, how much and what type of commodity will be transiting; the intended port of entry, the date of transportation, the method and route of shipment, and other information concerning the transiting project that will enable APHIS to determine whether any disease introduction risk is associated with the transit and if so, what risk mitigation measures will be necessary to minimize that risk.

Description of Respondents: Business or other for-profit; Federal Government.
Number of Respondents: 29.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 33.

Animal and Plant Health Inspection Service

Title: Infectious Salmon Anemia (ISA)—Payment of Indemnity.

OMB Control Number: 0579-0192.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pest or diseases of livestock or poultry. Infectious Salmon Anemia (ISA) poses a substantial threat to the economic viability and sustainability of salmon aquaculture in the United States and abroad. ISA is the clinical disease resulting from infection with the ISA virus; signs include hemorrhaging, anemia, and lethargy. The Animal and

Plant Health Inspection Service (APHIS) will collect information using VS Form 1-22 ISA Program Enrollment Form and VS Form 1-23 All Species Appraisal & Indemnity Claim Form.

Need and Use of the Information: Each program participant must sign an ISA Program Enrollment Form in which they agree to participate fully in USDA's and the State of Maine's ISA Program. APHIS will collect the owner's name and address, the number of fish for which the owner is seeking payment, and the appraised value of each fish. The owner must also certify as to whether the fish are subject to a mortgage. Without the information it would be impossible for APHIS to launch its program to contain and prevent ISA outbreaks in the United States.

Description of Respondents: Business or other for-profit.

Number of Respondents: 16.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.
Total Burden Hours: 1,421.

Animal and Plant Health Inspection Service

Title: Nomination Request Form; Animal Disease Training.

OMB Control Number: 0579-0353.

Summary of Collection: The Animal Health Protection Act of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, eradicate pests or diseases of livestock or poultry. The Animal and Plant Health Inspection Service (APHIS) is responsible for administering regulations intended to prevent the introduction of animal diseases into the United States. The Professional Development Staff (PDS) of Veterinary Services within APHIS provides vital training to private veterinarians and State, Tribal, Industry, and university personnel which prepare them for animal disease response. To determine the need and demand for such courses, PDS must collect information from individuals who wish to attend training events facilitated by PDS.

Need and Use of the Information: Information will be collected from private veterinarians, State, Tribal, industry, and university personnel who desire to attend a PDS-sponsored training event. Prior to every PDS-facilitated event, respondents will submit a completed Nomination/Registration Request Form (VS Form 1-5) to the Regional Training Coordinators. Names, work addresses, work phone numbers, work email addresses, agency/organization

affiliation, and job title as well as supervisor and region approval is needed to produce participant rosters once course selections are made. Without the collection of this information, PDS cannot conduct training events to educate Federal, State and private veterinarians on eradication of diseases and sample collection.

Description of Respondents: Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 100.

Frequency of Responses: Recordkeeping; Reporting: On occasion.
Total Burden Hours: 30.

Submission for OMB Review; Comment Request

January 18, 2012.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information

unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Farm Service Agency

Title: Report of Acreage; Noninsured Crop Disaster Assistance Program.

OMB Control Number: 0560-0004.

Summary of Collection: 7 U.S.C. 7333(b)(3) specifically requires, for crops and commodities covered by the Noninsured Crop Disaster Assistance Program (NAP), annual reports of acreage planted and prevented from being planted must be reported, as required by the Secretary, by the designated acreage reporting data for the crop and location as established by the Secretary. The report of acreage is conducted on an annual basis and is used by the Farm Service Agency (FSA) county offices to determine eligibility for benefits that are available to producers on the farm. Respondents must provide the information each year because variables such as previous year experience, weather occurrences and projections, market demand, new farming techniques and personal preferences affect the amount of land being farmed, the mix of crops planted, and the projected harvest. Prior year information while useful is not sufficient on its own. Therefore, respondents must supply current data on a program year basis by the final reporting date established for their country to qualify for NAP assistance.

Need and Use of the Information: FSA will collect information verbally from the producers during visits to the county offices. FSA will collect one or more of the following data elements, as required: crop planted, planting date, crop's intended use, type or variety, practice (irrigated or non-irrigated), acres, location of the crop (tract and field), and the producer's percent share in the crop along with the names of other producers having an interest in the crop. Once the information is collected and eligibility established, the information is used throughout the crop year to ensure the producer remains compliant with program provisions. NAP requires crop, commodity, and acreage information collection on a program year basis. Failure to collect the data on that basis would result in program overpayments through producer ineligibility, incorrect acres, or incorrect shares of the crop.

Description of Respondents:

Individuals or households.

Number of Respondents: 291,500.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 619,438.

Submission for OMB Review; Comment Request

January 17, 2012.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: Quality Control Review Schedule.

OMB Control Number: 0584-0299.

Summary of Collection: States agencies are required to perform Quality Control (QC) review for the Supplemental Nutrition Assistance Program (SNAP). The FNS-380-1, Quality Control Review Schedule is for State use to collect both QC data and case characteristics for SNAP and to serve as the comprehensive data entry form for SNAP QC reviews. The legislative basis for the operation of the QC system is provided by Section 16 of the Food and Nutrition Act of 2008.

The proposed OMB inventory for the reporting and recordkeeping burdens associated with the FNS-380-1 is approximately 63,180.60 annual burden hours. This is a result of an increase in the current number of completed reviews and is also attributed to an increase in the recordkeeping burden because of a new recording requirement of all QC errors and error causing variances in QC final rule titled, "Supplemental Nutrition Assistance Program: Quality Control Error Tolerance Threshold," Vol. 26, No. 211, Pg. 67315, which went into effect on January 3, 2012. The burden estimates were not included in the regulation when the rule was published because FNS did not have clearly defined burden estimates finalized. At this time, we developed a more accurate estimate of these burden requirements, which are reflected below.

Need and Use of the Information: The Food and Nutrition Service (FNS) will collect information to monitor and reduce errors, develop policy strategies, and analyze household characteristic data. In addition, FNS will use the data to determine sanctions and bonus payments based on error rate performance, and to estimate the impact of some program changes to SNAP participation and costs by analyzing the available household characteristic data.

Description of Respondents: State, Local and Tribal Government.

Number of Respondents: 53.

Frequency of Responses: 2,257.74.

Estimated Total Burden Hours: 63,180.60.
