Title: TSCA Sec. 8(a) Preliminary Assessment Information Rule (PAIR).

ICR Status: This is a request to renew an existing approved collection. This ICR is scheduled to expire on January 31, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: Section 8(a) of the Toxic Substances Control Act (TSCA) authorizes EPA to promulgate rules under which manufacturers, importers and processors of chemical substances and mixtures must maintain records and submit reports to EPA. EPA has promulgated the Preliminary Assessment Information Rule (PAIR) under TSCA section 8(a). EPA uses PAIR to collect information to identify, assess and manage human health and environmental risks from chemical substances, mixtures and categories. PAIR requires chemical manufacturers and importers to complete a standardized reporting form to help evaluate the potential for adverse human health and environmental effects caused by the manufacture or importation of identified chemical substances, mixtures or categories. Chemicals identified by EPA or any other federal agency, for which a justifiable information need for production, use or exposure-related data can be satisfied by the use of the PAIR are proper subjects for TSCA section 8(a) PAIR rulemaking. In most instances the information that EPA receives from a PAIR report is sufficient to satisfy the information need in question. This information collection addresses the reporting and recordkeeping requirements associated with TSCA section 8(a).

Responses to the collection of information are mandatory (see 40 CFR parts 712, 766, and 792). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is

covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average about 28.7 hours per response. Burden is defined in 5 CFR 1320.3(b).

Respondents/Affected Entities: Entities potentially affected by this action are manufacturers, processors or importers of chemical substances, mixtures or categories.

Frequency of Collection: On occasion.

Estimated average number of responses for each respondent: 2.2.

Estimated No. of Respondents: 15.

Estimated Total Annual Burden on Respondents: 948 hours.

Estimated Total Annual Costs: \$59,158.

Changes in Burden Estimates: This request reflects a decrease of 620 hours (from 1,568 hours to 948 hours) in the total estimated respondent burden from that currently in the OMB inventory. This decrease reflects a decrease in the assumed number of PAIR reports filed annually, and the average annual number of respondents, based on the past five fiscal years of PAIR reporting data. The Supporting Statement provides details about the change in burden estimate. The change is an adjustment.

John Moses,

Director, Collection Strategies Division.
