

approaches that maximize net benefits (including potential economic, environmental, public health and safety, and other advantages; distributive impacts; and equity);

(4) To the extent feasible, specify performance objectives, rather than the behavior or manner of compliance a regulated entity must adopt; and

(5) Identify and assess available alternatives to direct regulation, including economic incentives—such as user fees or marketable permits—to encourage the desired behavior, or provide information that enables the public to make choices.

Executive Order 13563 also requires an agency “to use the best available techniques to quantify anticipated present and future benefits and costs as accurately as possible.” The Office of Information and Regulatory Affairs of OMB has emphasized that these techniques may include “identifying changing future compliance costs that might result from technological innovation or anticipated behavioral changes.”

We are taking this regulatory action only on a reasoned determination that its benefits justify its costs. In choosing among alternative regulatory approaches, we selected those approaches that maximize net benefits. Based on the analysis that follows, the Department believes that these regulations are consistent with the principles in Executive Order 13563.

We also have determined that this regulatory action would not unduly interfere with State, local, and Tribal governments in the exercise of their governmental functions.

In accordance with both Executive Orders, the Department has assessed the potential costs and benefits of this regulatory action. The potential costs associated with this regulatory action are those resulting from statutory requirements and those we have determined as necessary for administering the Department’s programs and activities.

Summary of Potential Costs and Benefits

This proposed regulatory action affects only State educational agencies (SEAs) or consortia of SEAs applying for assistance under the EAG program. It creates flexibility for the Department, with respect to EAG competitions in 2012 for FY 2011 funds and for subsequent competitions, to select from among, or to combine, selection criteria that were established in the 2011 NFP criteria, selection criteria from 34 CFR 75.210, and other selection criteria based on the statute under 34 CFR

75.209. This flexibility would allow the Department to align selection criteria with program needs and ensure that the strongest applications are selected for funding under the program.

We believe that adding this flexibility would not impose a financial burden that SEAs would not otherwise incur in the development and submission of a grant application under the EAG program. In addition, under some circumstances (for example, if the Department elected to use fewer criteria or factors in a given competition), the proposed changes could reduce the financial burden of preparing an EAG grant application by a modest amount. Moreover, the Department expects a small number of applicants, which further serves to mitigate any potential costs.

Intergovernmental Review: This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

DEPARTMENT OF ENERGY

Environmental Management Advisory Board

AGENCY: Office of Environmental Management, Department of Energy.

ACTION: Notice of renewal.

SUMMARY: Pursuant to Section 14(a)(2)(A) of the Federal Advisory Committee Act (Pub. L. 92–463), and in accordance with Title 41, Code of Federal Regulations, Section 102–3.65(a), and following consultation with the Committee Management Secretariat, General Services Administration, notice is hereby given that the Environmental Management Advisory Board will be renewed for a two-year period beginning January 23, 2012.

The Board provides advice and recommendations to the Assistant Secretary for Environmental Management (EM) on a broad range of corporate issues affecting the EM program. These issues include, but are not limited to, project management and oversight activities, cost/benefit analyses, program performance, human capital development, and contracts and acquisition strategies. Recommendations to EM on the programmatic resolution of numerous difficult issues will help achieve EM's objective of the safe and efficient cleanup of its contaminated sites.

Additionally, the renewal of the Environmental Management Advisory Board has been determined to be essential to the conduct of the Department's mission and to be in the public interest in connection with the performance of duties imposed the Department of Energy by law and agreement. The Board will operate in accordance with the provisions of the Federal Advisory Committee Act, and rules and regulations issued in implementation of that Act.

FOR FURTHER INFORMATION CONTACT: Ms. Kristen G. Ellis, Designated Federal Officer, by telephone at (202) 586–5810 or by email at: kristen.ellis@em.doe.gov.

Issued at Washington, DC, on January 23, 2012.
