Turning Point Solar LLC: Notice of Availability of an Environmental Assessment

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of Availability of an Environmental Assessment for Public Review.

SUMMARY: The Rural Utilities Service (RUS) has prepared an Environmental Assessment (EA) to meet its responsibilities under the National Environmental Policy Act (NEPA) and RUS's Environmental and Policies and Procedures (7 CFR part 1794) in relation to possible financial assistance for a proposal by Turning Point Solar LCC (TPS). The proposal consists of constructing a 49.9 megawatt (MW) ground-mounted solar photovoltaic generating facility in Noble County, Ohio. Turning Point Solar LLC is requesting that RUS provide a loan or loan guarantee for the proposal. RUS is considering funding this proposal, thereby making it an undertaking subject to review under Section 106 of the National Historic Preservation Act (NHPA), 16 USC 470(f), and its implementing regulation, "Protection of Historic Properties" (36 CFR part 800).

DATES: Written comments on this Notice must be received on or before March 2, 2012.

ADDRESSES: A copy of the EA may be viewed at the following RUS Web site: <http://www.rurdev.usda.gov/UWP-ea.htm>, and at the following repository: Caldwell Public Library, 517 Spruce Street, Caldwell, Ohio 43724-0230; Telephone: (740) 732-4506 for operating hours.

FOR FURTHER INFORMATION CONTACT: To obtain copies of the EA, to comment on the EA, or for further information, contact: Ms. Lauren McGee, Environmental Scientist, USDA/RUS, 1400 Independence Ave. SW., Room 2244-S, Stop 1571, Washington, DC 20250-1571, Telephone: (202) 720-1482, fax: (202) 690-0649, or email: lauren.mcgee@wdc.usda.gov.

SUPPLEMENTARY INFORMATION: Turning Point Solar LLC proposes to construct a 49.9 MW solar generating facility in Brookfield Township, Noble County, Ohio. The proposal involves the installation of high-efficiency monocrystalline photovoltaic panels mounted on fixed solar racking equipment and the construction of access roads, a powerhouse, transmission improvements, and other supporting facilities. The preferred site is located eight miles northwest of Caldwell, Ohio, on approximately 771 acres of reclaimed strip-mined land owned by Columbus Southern Power Company and Ohio Power Company, collectively American Electric Power Ohio (AEP Ohio). The land was mined by the Central Ohio Coal Company between 1969 and 1991, after which time it was reclaimed. The proposed generating facility would interconnect to AEP Ohio's South Cumberland 69kV substation, subject to completion of the Pennsylvania-New Jersey-Maryland (PJM) Generation Interconnection application process.

As part of its environmental review process, RUS must take into account the effect of the proposal on historic properties in accordance with section 106 of the National Historic Preservation Act and its implementing regulation, "Protection of Historic Properties" (36 CFR part 800). Pursuant to 36 CFR 800.2(d)(3), RUS is using its procedures for public involvement under NEPA to meet its responsibilities to solicit and consider the views of the public during Section 106 review. RUS has determined that no historic properties listed in or eligible for listing on the National Register of Historic Places (NRHP) will be affected by the proposal.

Alternatives considered by RUS and TPS include (a) no action, (b) project alternatives, and (c) project alternative sites. An environmental report that describes the proposal in detail and discusses its anticipated environmental impacts has been prepared by URS Corporation. RUS has reviewed and accepted the document as its EA of the proposal. The EA is available for public review at the addresses provided in this Notice. Questions and comments should be sent to RUS at the mailing or email addresses provided in this Notice. RUS should receive comments on the EA in writing by March 2, 2012 to ensure that they are considered in its environmental impact determination.

Should RUS, based on the EA of the proposal, determine that the impacts of the construction and operation of the proposal would not have a significant environmental impact, it will prepare a

Finding of No Significant Impact. Public notification of a Finding of No Significant Impact would be published in newspapers with circulation in the proposal area. Any final action by RUS related to the proposal will be subject to, and contingent upon, compliance with all relevant Federal, State and local environmental laws and regulations, and completion of the environmental review requirements as prescribed in RUS's Environmental Policies and Procedures (7 CFR part 1794).

Chlorinated Isocyanurates From the People's Republic of China: Extension of Time Limit for Final Results of Antidumping Duty New Shipper Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* February 1, 2012.

FOR FURTHER INFORMATION CONTACT: Jun Jack Zhao, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-1396.

Background

On November 7, 2011, the Department of Commerce (the Department) issued the preliminary rescission of the new shipper review under the antidumping duty order on chlorinated isocyanurates from the People's Republic of China for Heze Huayi Chemical Co. Ltd. (Heze Huayi) covering the period June 1, 2010, through December 31, 2010. *See Chlorinated Isocyanurates from the People's Republic of China: Preliminary Rescission of Antidumping Duty New Shipper Review*, 76 FR 70705 (November 15, 2011). The final results of review are currently due on February 6, 2012.¹

¹ Because the calculated final results signature date falls on Sunday, February 5, 2012, the signature date for the final results is moved to the next business day, February 6, 2012. *See Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines*

Statutory Time Limits

Section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.214(i)(1) provide that the Department will issue the final results of a new shipper review within 90 days after the date on which the preliminary results were issued. However, if the Department concludes that a new shipper review is extraordinarily complicated, the Department may extend the 90-day period to 150 days. *See* 19 CFR 351.214(i)(2).

Extension of Time Limit for Final Results

The Department determines that this new shipper review is extraordinarily complicated because of the additional unreported sales to the United States during the period of review by Heze Huayi. On December 16, 2011, Heze Huayi submitted an extensive case brief regarding these sales and the Department's preliminary decision to rescind the review. On December 22, 2011, Clearon Corp. and Occidental Chemical Corporation, Petitioners in the original investigation, submitted an extensive rebuttal brief. The issues raised in the case and rebuttal briefs regarding these unreported sales and how they should be evaluated in the context of a new shipper review are complex and multifaceted. Therefore, in accordance with section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2), the Department finds that this case is extraordinarily complicated and is extending the time limit for the final results from 90 days to 150 days. Accordingly, the final results will now be due no later than April 5, 2012.

We are issuing and publishing this notice in accordance with sections 751(a)(2)(B)(iv) and 777(i)(I) of the Act.

Dated: January 25, 2012.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity To Request Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

Pursuant to the Tariff Act of 1930, As Amended, 70 FR 24533 (May 10, 2005).

Background

Each year during the anniversary month of the publication of an antidumping or countervailing duty order, finding, or suspended investigation, an interested party, as defined in section 771(9) of the Tariff Act of 1930, as amended ("the Act"), may request, in accordance with 19 CFR 351.213, that the Department of Commerce ("the Department") conduct an administrative review of that antidumping or countervailing duty order, finding, or suspended investigation.

All deadlines for the submission of comments or actions by the Department discussed below refer to the number of calendar days from the applicable starting date.

Respondent Selection

In the event the Department limits the number of respondents for individual examination for administrative reviews initiated pursuant to requests made for the orders identified below, the Department intends to select respondents based on U.S. Customs and Border Protection ("CBP") data for U.S. imports during the period of review. We intend to release the CBP data under Administrative Protective Order ("APO") to all parties having an APO within five days of publication of the initiation notice and to make our decision regarding respondent selection within 21 days of publication of the initiation **Federal Register** notice. Therefore, we encourage all parties interested in commenting on respondent selection to submit their APO applications on the date of publication of the initiation notice, or as soon thereafter as possible. The Department invites comments regarding the CBP data and respondent selection within five days of placement of the CBP data on the record of the review.

In the event the Department decides it is necessary to limit individual examination of respondents and conduct respondent selection under section 777A(c)(2) of the Act:
