SUPPLEMENTARY INFORMATION:

History

On August 10, 2011, the FAA published in the Federal Register a notice of proposed rulemaking (NPRM) to amend Class E airspace for the South Bend, IN, area, creating additional controlled airspace at Jerry Tyler Memorial Airport (76 FR 49385) Docket No. FAA–2011–0250. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Subsequent to publication, errors were found in the name of the South Bend ILS Outer Marker and the geographic coordinates of the Gipper VORTAC. This rule will make the corrections to be in concert with the FAA’s aeronautical database. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9V dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by amending Class E airspace extending upward from 700 feet above the surface to accommodate new standard instrument approach procedures at Jerry Tyler Memorial Airport, Niles, IN. This action is necessary for the safety and management of IFR operations at the airport. This action also corrects the name of the South Bend ILS Outer Marker to the Misha Outer Marker, and adjusts the geographic coordinates of the Gipper VORTAC in the airspace designation and regulatory text. With the exception of editorial changes and the changes described above, this action is the same as that proposed in the NPRM.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace in the South Bend, IN, area.

SUPPLEMENTARY INFORMATION:

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by changing the airport formerly known as Jackson County-Reynolds Field to Jackson County Airport-Reynolds Field, and adjusting the geographic coordinates within Class D airspace to coincide with the FAA’s aeronautical database. SUPPLEMENTARY INFORMATION:

I. Background

In the Federal Register of April 14, 2011 (76 FR 20901), FDA issued a proposed rule seeking to amend several provisions of its general regulations to reflect the Agency’s new authority and mandate regarding tobacco products under the Tobacco Control Act (Pub. L. 11–31; 123 Stat. 1776). FDA received substantive comments to its proposal from only one commenter. However, FDA does not believe that these comments warrant making any changes to the regulatory language included in the proposed rule.

Relevant portions of these comments are summarized and responded to in the relevant section(s) of this document. To make it easier to identify comments and FDA’s responses, the word “Comment,” in brackets, appears before the comment’s description, and the word “Response,” in brackets, appears before FDA’s response. Each comment is numbered to help distinguish among different comments. The number assigned to each comment is purely for organizational purposes and does not signify the comment’s value or importance.

II. Legal Authority

FDA is issuing this final rule under provisions of the Federal Food, Drug, and Cosmetic Act (the FD&C Act), as amended by the Tobacco Control Act (21 U.S.C. 321, 331, 333, 371, 381, 387, 387a, 387c, 387f, 387j, and 387k). FDA is also issuing this final rule under section 4 of the Federal Cigarette Labeling and Advertising Act (FCLAA) (15 U.S.C. 1331) as amended by the Tobacco Control Act, and under section 3 of the Comprehensive Smokeless
