Discussion

The SOARCA project analyzed a select set of potential severe reactor accidents at the Surry Power Station near Surry, VA and the Peach Bottom Atomic Power Station near Lancaster, PA. The project, which began in 2007, combined up-to-date information about the plants' layout and operations with local population data and emergency preparedness plans. This information was then analyzed using state-of-the-art computer codes that incorporate decades of international research into severe reactor accidents.

Public Meetings

The first public meeting will be held on February 21, 2012, at 5 p.m. to 9 p.m., Surry Courthouse, General District Courtroom, 45 School Street, Surry, VA 23883. The second meeting will be held on February 22, 2012, at 5 p.m. to 9 p.m., Peach Bottom Inn, 6085 Delta Road, Delta, PA 17314. The SOARCA team will present the project's findings, answer questions, and take comments on the draft report. The meeting agendas will be published on the NRC's Public Meeting Schedule Web site, <http://www.nrc.gov/public-involve/public-meetings/index.cfm>, 10 days prior to the meeting dates. Any changes regarding the meetings will be available on the previously stated Web site.

Dated at Rockville, Maryland, this 26th day of January, 2012.
