

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act¹¹ and Rule 19b-4(f)(6) thereunder.¹² Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹³ and Rule 19b-4(f)(6)(iii) thereunder.¹⁴

A proposed rule change filed under Rule 19b-4(f)(6)¹⁵ normally does not become operative for 30 days after the date of filing. However, pursuant to Rule 19b-4(f)(6)(iii)¹⁶ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing.

The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, as it will allow the pilot program to continue uninterrupted, thereby avoiding the investor confusion that could result from a temporary interruption in the pilot program. For this reason, the Commission designates the proposed rule change to be operative upon filing.¹⁷

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the

public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Self-Regulatory Organizations; BATS Exchange, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Related to Fees for Use of BATS Exchange, Inc.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange recently proposed and received approval of rules governing auctions conducted on the Exchange for securities listed on the Exchange ("Exchange Auctions").⁶ Specifically, the Exchange adopted rules for conducting an opening auction on the Exchange ("Opening Auction"), a closing auction on the Exchange ("Closing Auction"), an auction in the event of an initial public offering ("IPO") or a halt of trading in the security ("IPO Auction" or "Halt Auction," respectively). In preparation for commencement of its listings business, and in turn, the commencement of Exchange Auctions, the Exchange proposes pricing for executions that occur in Exchange Auctions, as set forth below.

The Exchange proposes to charge fees of \$0.0005 per share that executes in an Opening Auction, IPO Auction or Halt Auction and \$0.0010 per share that executes in a Closing Auction. These rates are equivalent to the fees assessed by the NASDAQ Stock Market LLC ("NASDAQ") for executions that occur in crosses on NASDAQ.⁷

Also similar to NASDAQ, the Exchange proposes to exempt certain executions from fees, specifically any executions in an Exchange Auction of any Continuous Book,⁸ Late-Limit-On-Open ("LLOO")⁹ or Late-Limit-On-

Close ("LLOC")¹⁰ orders as defined in BZX Exchange Rule 11.23(a). Accordingly, excluding LLOOs and LLOCs, the Exchange will assess fees of either \$0.0005 per share or \$0.0010 per share (depending on the applicable Exchange Auction) for all "Eligible Auction Orders," which term includes Market-On-Open,¹¹ Limit-On-Open,¹² Market-On-Close,¹³ Limit-On-Close,¹⁴ any Regular Hours Only¹⁵ order prior to the Opening Auction, and any limit or market order not designated to exclusively participate in the Opening Auction or Closing Auction entered during the Quote-Only Period¹⁶ of an IPO Auction or Halt Auction.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6 of the Act.¹⁷ Specifically, the Exchange believes that the proposed rule change is consistent with Section 6(b)(4) of the Act,¹⁸ in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and other persons using any facility or system which the Exchange operates or controls. The Exchange notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing

venues if they deem fee levels at a particular venue to be excessive.

The Exchange believes that the proposed fees for executions of Eligible Auction Orders that occur in Exchange Auctions (other than LLOOs and LLOCs) are reasonable in that they are equivalent to the fees charged by at least one of the Exchange's competitors, as described above. The Exchange also believes that the proposed fees are fair and equitable and not unreasonably discriminatory in that they apply equally to all Exchange participants. The Exchange believes that excluding Continuous Book orders from fee liability in Exchange Auctions is reasonable because such orders, if already posted to the Exchange's order book, would be eligible for rebates provided by the Exchange, and would not be assessed fees. Accordingly, while the Exchange does not propose to provide a rebate for any execution that occurs in an Exchange Auction, the Exchange believes it is reasonable to provide executions of Continuous Book orders free of charge. Similarly, the Exchange believes that excluding LLOOs and LLOCs from fee liability in Exchange Auctions is reasonable because such orders are late arriving orders that are likely to improve the execution quality received by other orders submitted to the Auction. Accordingly, the Exchange believes that the proposal is not unfairly discriminatory because it is consistent with the overall goals of enhancing market quality. As is true for the fees to be assessed on executions that occur in Exchange Auctions, the exclusion of fees for Continuous Book orders, LLOOs and LLOCs is fair and equitable and not unreasonably discriminatory because this fee treatment is equally available to all Exchange Users.

The Exchange notes that NASDAQ also excludes its equivalent of Continuous Book orders from fee liability in the NASDAQ opening and closing crosses.¹⁹ While the Exchange does not have a direct equivalent to the NASDAQ "imbalance only" order, which are also executed free of charge by NASDAQ in the NASDAQ opening and closing crosses,²⁰ the Exchange's LLOOs and LLOCs are analogous in some ways in that LLOOs and LLOCs are late arriving limit orders that are likely to provide additional liquidity against which Eligible Auction Orders will be able to execute.

"User" is defined in Rule 1.5(cc) as any Member or sponsored participant with access to the Exchange.

¹⁰ The term "Late-Limit-On-Close" or "LLOC" is defined in Rule 11.23(a) as a "BATS limit order that is designated for execution only in the Closing Auction." Users may only submit LLOC orders between 3:55 p.m. and 4 p.m. Eastern Time.

¹¹ A "Market-On-Open" order is defined in Rule 11.23(a) as a "BATS market order that is designated for execution only in the Opening Auction."

¹² A "Limit-On-Open" order is defined in Rule 11.23(a) as a "BATS limit order that is designated for execution only in the Opening Auction."

¹³ A "Market-On-Close" order is defined in Rule 11.23(a) as a "BATS market order that is designated for execution only in the Closing Auction."

¹⁴ A "Limit-On-Close" order is defined in Rule 11.23(a) as a "BATS limit order that is designated for execution only in the Closing Auction."

¹⁵ A "Regular Hours Only" order is defined in Rule 11.23(a) as a "BATS order that is designated for execution only during Regular Trading Hours, which includes the Opening Auction, the Closing Auction, and IPO/Halt Auctions." "Regular Trading Hours" is defined in Rule 1.5(w) as "the time between 9:30 a.m. and 4 p.m. Eastern Time."

¹⁶ The "Quote Only Period" is defined in Rule 11.23(a) as "a designated period of time prior to a Halt Auction or an IPO during which Users may submit orders to the Exchange for participation in the auction."

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Self-Regulatory Organizations; NASDAQ OMX BX, Inc.; Notice of Filing of Amendment No. 1, and Order Granting Accelerated Approval of Proposed Rule Change as Modified by Amendment No. 1, To Amend the BOX Fee Schedule With Respect to Credits and Fees for Transactions in the BOX PIP

January 30, 2012.

On July 15, 2011, NASDAQ OMX BX, Inc. (the "Exchange") filed with the Securities and Exchange Commission (the "Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Exchange Act" or "Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to amend the

Fee Schedule of the Boston Options Exchange Group, LLC ("BOX") to increase the credits and fees for certain transactions in the BOX Price Improvement Period ("PIP").³ The proposed rule change was immediately effective upon filing with the Commission pursuant to Section 19(b)(3)(A) of the Act.⁴ Notice of filing of the proposed rule change was published in the **Federal Register** on August 3, 2011.⁵ The Commission received four comment letters on the Notice⁶ and a response from BOX.⁷

On September 13, 2011, the Commission temporarily suspended BOX's proposal and simultaneously instituted proceedings to determine whether to approve or disapprove the proposed rule change.⁸ On September 20, 2011, the Commission received notice of BOX's intention to petition for review of the Division's action by delegated authority to suspend its PIP fee filing, which triggered a stay of the suspension order. On September 27, 2011, the Commission received BOX's petition to review the Division of Trading and Markets' suspension by delegated authority.⁹ On October 19, 2011, the Commission issued an order denying BOX's petition, lifting the

³ The PIP is a mechanism in which a BOX Options Participant submits an agency order on behalf of a customer for price improvement, paired with a contra-order guaranteeing execution of the agency order at or better than the National Best Bid or Offer ("NBBO"). The contra-order could be for the account of the Options Participant, or an order solicited from someone else. The agency order is exposed for a one-second auction in which other BOX Options Participants ("Initiating Participant") may submit competing interest at the same price or better. The initiating BOX Options Participant is guaranteed 40% of the order (after public customers) at the final price for the PIP order, assuming it is at the best price.
