The Kern County General Plan Buildout Alternative (referred to as the MSHCP General Plan Buildout Alternative in the 2009 Draft EIS) has also been revised. While the Ranchwide Agreement has resulted in the recordation of conservation easements on 12,795 acres of the Covered Lands (Existing Conservation Easement Areas), the remainder of the Covered Lands to be precluded from development under the Ranchwide Agreement do not currently have conservation easements recorded. As noted above, because the Ranchwide Agreement is a private agreement between parties and Service is not a party to and has no contractual standing under the agreement, it can be amended (or even terminated) by mutual agreement of the parties such that the land preservation outcome of the Ranchwide Agreement on Covered Lands may not be realized. While the Service considers the likelihood remote that the Ranchwide Agreement would be terminated, for purposes of comprehensive NEPA analysis, this alternative does not assume continuation of the Ranchwide Agreement except for the permanent protection of the already-recorded conservation easements on the Existing Conservation Easement Lands.

Under the Kern County General Plan Buildout Alternative, development is assumed to proceed in accordance with the Kern County General Plan, including implementation of the TMV Project (per the TMV Project Approvals). Development of the Covered Lands would require Kern County approval, and the SDEIS assumes that it would proceed on a project-by-project basis and that the Service would issue incidental take authorization as appropriate through either the ESA Section 7 or Section 10 process.

Public Comments

If you wish to comment on the permit application, SDEIS, TU MSHCP, or draft IA, you may submit your comments to the address listed in ADDRESSES. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Decision

The Service will evaluate the application, associated documents, and comments submitted before preparing a final EIS. A permit decision will be made no sooner than 30 days after the final EIS is filed with EPA, published and the Record of Decision is completed.

This notice is provided pursuant to section 10(a) of the Act and pursuant to implementing regulations for NEPA (40 CFR 1506.6).
