scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be postmarked on or before February 27, 2012. Address written comments to Statutory Import Programs Staff, Room 3720, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5:00 p.m. at the U.S. Department of Commerce in Room 3720.

Docket Number: 11–061. Applicant: Max Planck Florida Institute, 5353 Parkside Dr., MC19–RE Jupiter, FL 33458. Instrument: Electron Microscope. Manufacturer: FEI Co., Czech Republic. Intended Use: The instrument will be used to construct a digital anatomical atlas of the brain, involving refining the provisional localization of different calcium channel subunits from fluorescence microscopy initially by super resolution STED and then by immunogold freeze-fracture replica labeling. The objectives of the research also include understanding visual perception and the organization of the visual cortex, synapse physiology and mechanisms of synaptic signaling and computation, the molecular mechanism of synaptic function, the cellular organization of cortical circuit function, and the digital anatomy of the brain. Observations made by light microscopy may be required to be corroborated by electron microscopy in order to be accepted for publication. A unique feature of this instrument is the multi-specimen holder that can be tilted more than 45 degrees, which is necessary to observe irregular surfaces of specimens three dimensionally. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 28, 2011.

Docket Number: 11–071. Applicant: Texas Tech University, 100 Engineering Center, 9th and Canton, Lubbock, TX 79409–3103. Instrument: Electron Microscope. Manufacturer: Hitachi High-Technologies Corporation, Japan. Intended Use: The instrument will be used to correlate the structural properties with observed physical properties such as magnetic and electronic properties of a variety of materials, from inorganic to organic, which exhibit features which can only be observed with this type of microscope. The research will involve temperature dependence imaging and energy dispersive x-ray analysis. The data collected will be applied to energy storage and conversion, environmental remediation and catalysis. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: December 9, 2011.

Docket Number: 11–073. Applicant: Ball State University, 2000 W University Ave., Muncie, Indiana 47306. Instrument: Electron Microscope. Manufacturer: JEOL Ltd., Japan. Intended Use: The instrument will be used to study the developing nervous system, chemical stressors in freshwater ecosystems, organ development, cells that line blood vessel walls, luminescent thin films, carbon nanotube synthesis, and air purification materials. Tissues that will be examined will include brain, heart, lung, muscle, and cultured cells. Material samples include thin film, nanoparticles and nanotubes. The main objective of the research is to obtain images that the existing technology cannot currently resolve, including resolution at the nanometer level and below. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: January 6, 2012.

Gregory Campbell,
Director, IA Subsidies Enforcement Office.

Application(s) for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, as amended by Pub. L. 106–36; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be postmarked on or before February 27, 2012. Address written comments to Statutory Import Programs Staff, Room 3720, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5:00 p.m. at the U.S. Department of Commerce in Room 3720.

Docket Number: 11–072. Applicant: University of California, Davis, NEAT ORU, One Shields Ave., Davis, CA 95616. Instrument: Alexsys 1000 Calorimeter. Manufacturer: Setaram Instrumentation, France. Intended Use: The instrument will be used to determine enthalpies of formation, phase transition, order-disorder, and other chemical reactions among oxides, silicates, nitrides and other compounds of rare earths, actinides, and other metals. Research will focus on uranium,
thorium, cerium, zirconium, and rare earth-based materials, and the properties of these materials in extreme environments. This instrument is unique in that it combines the sensitivity, long life, and reproducibility of thermopile modules with a large internal working volume capable of containing the molten oxide solvents used for calorimetry and operating in the range 700–1000 degrees Celsius where such solvents are molten. Conventional differential scanning calorimeters, made by other companies, are completely different in design and do not feature the large sample volume surrounded by a sensitive detector that is essential for solution calorimetry. Justification for Duty-Free Entry: There are no instruments of the same general category being manufactured in the United States. Application accepted by Commissioner of Customs: December 9, 2011.

Docket Number: 12–001. Applicant: The Regents of the University of California, Lawrence Berkeley National Laboratory, 1 Cyclotron Rd M/S 71R0259 Berkeley, CA 94720. Instrument: Berkeley Lab Laser Accelerator “BELLA” 1.3 petawatt laser system. Manufacturer: Thales Optronique S.A., France. Intended Use: The instrument will be used to study the phenomena of Laser Plasma Acceleration (LPA) at elevated peak power intensities and pulse repetition rates, achievable only with the BELLA laser system. Requirements of this system include that it is characterized by a short pulse, high intensity, Ti:sapphire laser able to demonstrate a 10 GeV laser-plasma accelerator module with a pulse energy of 40 joules on target and a pulse duration of <40 femtoseconds at optimum compression with a repetition rate of 1Hz +/- 5%. Justification for Duty-Free Entry: There are no instruments of the same general category being manufactured in the United States. Application accepted by Commissioner of Customs: January 6, 2012.

Frontseating Service Valves From the People’s Republic of China: Notice of Court Decision Not in Harmony With Final Determination and Notice of Amended Final Determination and Antidumping Duty Order Pursuant to Court Decision

SUMMARY: On January 27, 2012, the United States Court of International Trade (“CIT”) sustained the Department of Commerce’s (“the Department”) final results of redetermination pursuant to the CIT’s remand order in Zhejiang DunAn Hetian Metal Co., Ltd. v. United States, Court No. 09–00217, Slip Op. 11–120 (CIT Sept. 28, 2011) (“Remand”).

Consistent with the decision of the United States Court of Appeals for the Federal Circuit (“CAFC”) in Timken Co. v. United States, 893 F.2d 337 (Fed. Cir. 1990) (“Timken”), as clarified by Diamond Sawblades Mfrs. Coalition v. United States, 626 F.3d 1374 (Fed. Cir. 2010) (“Diamond Sawblades”), the Department is notifying the public that the final judgment in this case is not in harmony with the Department’s final determination and is amending the final determination of the less-than-fair-value investigation of frontseating service valves (“FSVs”) from the People’s Republic of China (“PRC”) with respect to the margin assigned to Zhejiang DunAn Hetian Metal Co., Ltd. (“DunAn”) covering the period of investigation (“POI”) July 1, 2007, through December 31, 2007, and the antidumping order.

DATES: Effective Date: February 6, 2012.

FOR FURTHER INFORMATION CONTACT: Eve Wang, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–6231.
