SUPPLEMENTARY INFORMATION: On December 9, 2011, we published a notice of our draft policy (76 FR 76987) to establish a joint interpretation and application of “significant portion of its range” that reflects a permissible reading of the law and its legislative history and minimizes undesirable policy outcomes, while fulfilling the conservation purposes of the Act. That notice established a 60-day comment period ending February 7, 2012. We have received a number of requests to extend the public comment period. Considering the complexity of the issues addressed in the draft policy and the level of public interest, we have decided that additional time for public comment will be particularly valuable for this action and thus are extending the comment period for an additional 30 days. The draft policy and supporting materials are available for review at <http://www.regulations.gov> under Docket No. FWS–R9–ES–2011–0031.

Public Comments; Request for Information

We intend that the final policy on interpretation of the phrase “significant portion of its range” in the Act’s definitions of “endangered species” and “threatened species” will consider information and recommendations from all interested parties. We therefore solicit comments, information, and recommendations from governmental agencies, Native American tribes, the scientific community, industry groups,

environmental interest groups, and any other interested parties. All comments and materials received by the date listed in the **DATES** section above will be considered prior to the approval of a final document. For the complete list of subjects on which we seek comments, please refer to the December 9, 2011, draft policy (76 FR 76987), available on line at <http://www.regulations.gov> under Docket No. FWS–R9–ES–2011–0031.

Please include sufficient information with your submission (such as references to scientific journal articles or other publications) to allow us to verify any scientific or commercial information you include.

You may submit your information concerning this draft policy by one of the methods listed in the **ADDRESSES** section. If you submit information via <http://www.regulations.gov>, your entire submission—including any personal identifying information—will be posted on the Web site. If you submit a hardcopy that includes personal identifying information, you may request at the top of your document that we withhold this personal identifying information from public review. However, we cannot guarantee that we will be able to do so. We will post all hardcopy submissions on <http://www.regulations.gov>.

Information and supporting documentation used in preparing this document is available for you to review at <http://www.regulations.gov>, or you may make an appointment during normal business hours at the U.S. Fish and Wildlife Service, Endangered Species Program (see **FOR FURTHER INFORMATION CONTACT**).

While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
