SUPPLEMENTARY INFORMATION:**I. Abstract**

This request is for an extension of a currently approved information collection.

That National Oceanic and Atmospheric Administration (NOAA) annually collects socioeconomic data from commercial fishermen in the Gulf of Mexico and South Atlantic shrimp fisheries who hold one or more permits for shrimp fishing in federal waters (United States (U.S.) Exclusive Economic Zone (EEZ)). Information about revenues, variable and fixed costs, capital investment and other socioeconomic information is collected from a random sample of permit holders. This data complements other data already collected and is needed to conduct socioeconomic analyses in support of management of the shrimp fishery and to satisfy legal requirements. The data will be used to assess how fishermen will be impacted by and respond to federal regulation likely to be considered by fishery managers.
