

Wilderness Society; (3) Mr. Daniel Lum; and (4) Ms. Donna Arvelo. On January 12, 2012, the EAB dismissed Ms. Arvelo's petition as untimely and denied review of the three other petitions. See *In re Shell Gulf of Mexico, Inc. and Shell Offshore, Inc.*, OCS Appeal Nos. 11-02, 11-03, 11-04 & 11-08 (EAB, Jan. 12, 2011) (Order Denying Review). Following the EAB's action, pursuant to 40 CFR 124.19(f)(1), EPA Region 10 issued final permit decisions on January 27, 2011. All conditions of the Shell Discoverer permits, as initially issued by Region 10 on September 19, 2011, are final and effective.

Dated: January 31, 2012.

Richard G. Albright,

Director, Region 10 Office of Air, Waste & Toxics.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9630-1; EPA-HQ-ORD-2012-0093]

Notice of Workshop and Call for Information on Integrated Science Assessment for Oxides of Nitrogen

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; call for information.

SUMMARY: The U.S. EPA Office of Research and Development's National Center for Environmental Assessment (NCEA) is preparing an Integrated Science Assessment (ISA) as part of the review of the primary National Ambient Air Quality Standards (NAAQS) for oxides of nitrogen (NO_x). The scientific review that informs the ISA will include evidence for NO_x whereas the indicator for NO_x that has been used for the standard is nitrogen dioxide (NO₂). Thus, the ISA is referred to as the NO_x ISA while the standard itself is referred to as the NO₂ NAAQS. This ISA is intended to update the scientific assessment presented in the *Integrated Science Assessment for Oxides of Nitrogen—Health Criteria* (EPA 600/R-08/071), published in July 2008. Interested parties are invited to assist the EPA in developing and refining the scientific information base for the review of the NO₂ NAAQS by submitting research studies that have been published, accepted for publication, or presented at a public scientific meeting.

The EPA is also announcing that a workshop entitled "*Kickoff Workshop to Inform EPA's Review of the Primary NO₂ NAAQS*" is being organized by NCEA and the EPA Office of Air and Radiation's Office of Air Quality Planning and Standards (OAQPS). The

workshop will be held February 29 to March 1, 2012, in Research Triangle Park, North Carolina. The workshop will be open to attendance by interested public observers on a first-come, first-served basis up to the limits of available space.

DATES: The workshop will be held on February 29 to March 1, 2012. All communications and information submitted in response to the call for information should be received by EPA by March 9, 2012.

ADDRESSES: The workshop will be held at U.S. EPA, 109 T.W. Alexander Drive, Research Triangle Park, North Carolina. An EPA contractor, ICF International, is providing logistical support for the workshop. To register, please send an email to:

EPA NAAQS Workshop@icfi.com with "NO_x Kickoff Workshop" in the subject line. The pre-registration deadline is February 17, 2012. Please direct questions regarding workshop registration or logistics to Courtney Skuce at (919) 293-1660, or the email address provided above. For specific questions regarding technical aspects of the workshop see the **FOR FURTHER INFORMATION CONTACT** section of this notice.

Information in response to the call for information may be submitted electronically, by mail, by facsimile, or by hand delivery/courier. Please follow the detailed instructions as provided in the **SUPPLEMENTARY INFORMATION** section of this notice.

FOR FURTHER INFORMATION CONTACT: For details on the period for submission of research information from the public, contact the Office of Research and Development (ORD) Docket; telephone: 202-566-1752; facsimile: 202-566-1753; or email: *ORD.Docket@epa.gov*. For technical information, contact Tom Luben, Ph.D., NCEA, telephone: (919) 541-5762; facsimile: (919) 541-2985; or email: *luben.tom@epa.gov* or Scott Jenkins, Ph.D., OAQPS, telephone: (919) 541-1167 or email: *jenkins.scott@epa.gov*.

SUPPLEMENTARY INFORMATION:

I. Information About the Project

Section 108(a) of the Clean Air Act directs the Administrator to issue "air quality criteria" for certain air pollutants. These air quality criteria are to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare, which may be expected from the presence of such pollutant in the ambient air * * *." Under section 109 of the Act, EPA is then to establish NAAQS for each

pollutant for which EPA has issued criteria. Section 109(d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health and welfare. EPA is also to revise the NAAQS, if appropriate, based on the revised air quality criteria.

NO₂ is one of six “criteria” pollutants for which EPA has established NAAQS. Periodically, EPA reviews the scientific basis for these standards by preparing an ISA. The ISA, along with additional technical and policy assessments conducted by OAQPS, form the scientific and technical basis for EPA decisions on the adequacy of existing NAAQS and the appropriateness of new or revised standards.

At the start of a NAAQS review, EPA issues an announcement of the review and notes the initiation of the development of the ISA. At that time, EPA also issues a request that the public submit scientific literature that they want to bring to the attention of the Agency for consideration in the review process. The Clean Air Scientific Advisory Committee (CASAC), an independent scientific advisory committee mandated by the Clean Air Act, is charged with independent expert scientific review of EPA’s draft ISAs. As the process proceeds, the public will have opportunities to review and comment on draft NO_x ISAs. These opportunities will also be announced in the **Federal Register**.

For the review of the NO₂ NAAQS being initiated by this notice, the Agency is interested in obtaining additional new information, particularly concerning toxicological studies of effects of controlled exposure to NO₂ on laboratory animals, humans, and in vitro systems, as well as, epidemiologic (observational) studies of health effects associated with ambient exposures of human populations to NO₂. EPA also seeks recent information in other areas of NO₂ research such as chemistry and physics, sources and emissions, analytical methodology, transport and transformation in the environment, and ambient concentrations. This and other selected literature relevant to a review of the NAAQS for NO₂ will be assessed in the forthcoming NO_x ISA.

As part of this review of the NO₂ NAAQS, EPA intends to sponsor a workshop on February 29 to March 1, 2012, to highlight significant new and emerging NO_x research, and to make recommendations to the Agency regarding the design and scope of the review for the primary (health-based) NO₂ standards to ensure that it

addresses key policy-relevant issues and considers the new science that is relevant to informing our understanding of these issues. In addition, other opportunities for submission of new peer-reviewed, published (or in-press) papers will be possible as part of public comment on the draft ISAs that will be reviewed by CASAC. We intend that workshop discussions will build upon three prior publications or events (please see http://www.epa.gov/ttn/naaqs/standards/nox/s_nox_index.html to obtain a copy of these and other related documents): (1) *Primary National Ambient Air Quality Standards for Nitrogen Dioxide; Final Rule (40 CFR Parts 50 and 58, February 9, 2010)*. The preamble to the final rule included detailed discussions of policy-relevant issues central to the last review; (2) *Integrated Science Assessment for Oxides of Nitrogen—Health Criteria (EPA 600/R-08/071, July 2008)*; and (3) *Risk and Exposure Assessment to Support the Review of the NO₂ Primary National Ambient Air Quality Standard (EPA 452/R-08/008a, November 2008)*.

Based in large part on the input received during this workshop, EPA will develop a draft integrated NO₂ NAAQS review plan that will outline the schedule, process, and approaches for evaluating the relevant scientific information and addressing the key policy-relevant issues to be considered in this review. The CASAC will be asked to conduct a consultation with the Agency on the draft integrated review plan, and the public will have the opportunity to comment on it as well. The final integrated review plan will be used to frame each of the major elements of the NO₂ review under the NAAQS review process: an integrated science assessment document, a risk/exposure assessment report, and a policy assessment.

II. How to Submit Technical Comments to the Docket at www.regulations.gov

Submit your comments, identified by Docket ID No. EPA-HQ-ORD-2012-0093 by one of the following methods:

- www.regulations.gov: Follow the on-line instructions for submitting comments.
- *Email*: ORD.Docket@epa.gov.
- *Fax*: 202-566-1753.
- *Mail*: Office of Research and Development (ORD) Docket (Mail Code: 2822T), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460. The phone number is 202-566-1752.
- *Hand Delivery*: The ORD Docket is located in the EPA Headquarters Docket Center, Room 3334, EPA West Building, 1301 Constitution Avenue NW.,

Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays. The telephone number for the Public Reading Room is 202-566-1744. Such deliveries are only accepted during the docket’s normal hours of operation, and special arrangements should be made for deliveries of boxed information. If you provide comments by mail or hand delivery, please submit three copies of the comments. For attachments, provide an index, number pages consecutively with the comments, and submit an unbound original and three copies.

Instructions: Direct your comments to Docket ID No. EPA-HQ-ORD-2012-0093. Please ensure that your comments are submitted within the specified comment period. Comments received after the closing date will be marked “late,” and may only be considered if time permits. It is EPA’s policy to include all comments it receives in the public docket without change and to make the comments available online at www.regulations.gov, including any personal information provided, unless a comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or email. The www.regulations.gov Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through www.regulations.gov, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA’s public docket visit the EPA Docket Center homepage at www.epa.gov/epahome/dockets.htm.

Docket: Documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available,

e.g., CBI or other information whose disclosure is restricted by statute. Certain other materials, such as copyrighted material, are publicly available only in hard copy. Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy at the ORD Docket in the EPA Headquarters Docket Center.

Dated: February 6, 2012.

Rebecca Clark,

Acting Director, National Center for Environmental Assessment.

BILLING CODE 6560-50-P

EXPORT-IMPORT BANK OF THE UNITED STATES

[Public Notice 2011-0080]

Privacy Act of 1974: New System of Records

AGENCY: Export-Import Bank of the United States.

ACTION: Notice of new System of Records for EIB 11-08 Application for Global Credit Express Revolving Line of Credit.

SUMMARY: Ex-Im Bank proposes to add a new application form subject to the Privacy Act of 1974 (5 U.S.C. 522a), as amended. This action is necessary to meet the requirements of the Privacy Act which is to publish in the **Federal Register** a notice of the existence and character of records maintained by the agency (5 U.S.C. 522s(e)(4)). The attached file contains the System of Records Notice (SORN) for EIB 11-08 Application for Global Credit Express Revolving Line of Credit. The application form will be operational in the next 60 days.

DATES: This action will be effective without further notice on April 10, 2012 unless comments are received that would result in a contrary determination.

ADDRESSES: Comments may be submitted electronically on www.regulations.gov or by mail to Jim Newton, Export-Import Bank of the United States, 811 Vermont Ave. NW., Washington, DC 20571

SUPPLEMENTARY INFORMATION: The Application for Global Credit Express Revolving Line of Credit will be used to determine the eligibility of the applicant and the transaction for Ex-Im Bank assistance under its Working Capital Guarantee and Direct Loan Program. Ex-Im Bank customers will be able to submit this form on paper only.

To underwrite this application, the Ex-Im Bank requires a Fair Issac Corporation (FICO) score. Some of the customers applying for this financing program are very small businesses and FICO uses the Social Security Number of the Borrower to acquire the consumer score.

Sharon A. Whitt,

Agency Clearance Officer.

System of Records Notice—EIB 11-08 Application for Global Credit Express Revolving Line of Credit

System Identifier:

EXIM/FORM-1.

SYSTEM NAME:

EIB 11-08 Application for Global Credit Express Revolving Line of Credit Federal Register Notice Date of Publication.

SECURITY CLASSIFICATION:

EIB 11-08 is an application that will be used to determine the eligibility to participate in Export-Import Bank's Working Capital Guarantee and Direct Loan Program. The application will be received in paper format only and is unclassified.

SYSTEM LOCATION:

All paper applications will be stored at Export-Import Bank of the United States, 811 Vermont Avenue NW., Washington, DC 20571.

CATEGORIES OF INDIVIDUALS COVERED BY THIS SYSTEM:

The Global Credit Express Revolving Line of Credit application will be used by U.S. small businesses.

CATEGORIES OF RECORDS IN THE SYSTEM:

The information contained on this application contains data required for Export-Import Bank to determine the eligibility of the application and the transaction for assistance under the Working Capital Guarantee and Direct Loan Program. This includes Company Name, address, telephone number, Web site, Tax ID Number, Dun & Bradstreet Number, Contact Person, Contact Person Title, phone number, email address, number of full-time employees, Gross Sales Last Fiscal Year, North American Industrial Classification System (NAICS) codes, declaration of minority ownership, Borrower's name, Title, Social Security Number, Address, Company, Dun & Bradstreet Number, Tax ID Number, Number of years exporting, number of foreign accounts, Payment terms provided to foreign buyers, Total Export credit sales for last 3 years, Export Credit Accounts Receivable Outstanding, Total Export

Credit loses for last 3 years, Five Largest Export Sales Markets, Description of principal line of business and products, description of how this loan will benefit your export related business, Calculation maximum loan amount and U.S. content of exports goods or services.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The Export-Import Bank requests the information in this application under the authority of the Export-Import Bank Act of 1945, as amended (12 U.S.C. 635 *et seq.*).

PURPOSE:

EIB 11-08 Application for Global Credit Express Revolving Line of Credit is used by an exporter in order to obtain approval for an Export-Import Bank direct loan or a guaranteed working capital line of credit to finance export sales. The information received provides Export-Import Bank staff with the information necessary to make a determination of the eligibility of the applicant and its creditworthiness for Export-Import Bank assistance under this direct loan and guarantee program.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM; INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The records maintained in the system will be used:

- a. To disclose information for audits and oversight purposes performed by Export-Import Bank employees;
- b. To provide information to a Congressional Office from the record of an individual in response to an inquiry from that Office;
- c. For investigations;
- d. By Export-Import Bank employees to collect information from third parties including credit reporting agencies and to collect credit scores;
- e. For Monthly, Quarterly, Semi-annual, and Annual reporting;
- f. To disclose information to Export-Import Bank contractors in support of Export-Import Bank authorized activities;
- g. For litigation;
- h. By National Archives and Records Administration for record management inspections in its role as Archivist;
- i. To disclose pertinent information to the appropriate Federal, State, or local agency responsible for investigating, prosecuting, enforcing, or implementing a statute, rule, regulation or other ____, when the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulations.
