This segregation is necessary to process the ROW application filed by Pattern Energy Group for the Ocotillo Express Wind Project on the above described lands while maintaining the status quo. The BLM is segregating the lands under the authority contained in 43 CFR 2091.3–1(e) and 2804.25(e) for a period of 2 years, subject to valid existing rights. This 2-year segregation period will commence on February 13, 2012. The public lands involved in this closure will be segregated from appropriation under the public land and mining laws, but not the mineral leasing or material sale laws. It has been determined that this segregation is necessary for the orderly administration of the public lands.

The segregation period will terminate and the lands will automatically reopen to appropriation under the public land laws, including the mining laws, if one of the following events occurs: (1) Upon the BLM's issuance of a decision regarding whether to issue a ROW authorization for the Ocotillo Express Project; (2) upon publication of a **Federal Register** notice of termination of the segregation; or (3) without further administrative action at the end of the segregation provided for in the **Federal Register** notice initiating the segregation, whichever occurs first. Any segregation made under this authority would be effective only for a period of up to 2 years. The lands to be segregated

are identified in the legal description above.

Deputy State Director, California.
