SUPPLEMENTARY INFORMATION:

Throughout this document, whenever “we,” “us,” or “our” is used, we mean EPA.

I. Background

On July 8, 2011, the West Virginia Department of Environmental Protection submitted a SIP revision pertaining to amendments of Legislative Rule 45CSR8—*Ambient Air Quality Standards*. EPA had approved a previous revision of Legislative Rule 45CSR8 on February 10, 2009 (74 FR 6552).

II. Summary of SIP Revision

Amendments to 45CSR8 consist of revisions to section 45-8-1—General, subpart 1.6—Former Rules, in which the effective and filed dates were revised to represent the most recent changes to the NAAQS and the addition of subpart 1.5—Incorporation by Reference to section 45-8-1 to incorporate by reference 40 CFR part 50—National Primary and Secondary Ambient Air Quality Standards and 40 CFR part 53—Ambient Air Monitoring Reference and Equivalent Methods, effective June 1, 2010. The previous version of 45CSR8 merely stated EPA standards for the NAAQS and the revised version incorporates by reference the NAAQS and monitoring reference and equivalency methods. Also, other amendments to 45CSR8 include the addition of section 45-8-3—Adoption of Standards and the removal of section 45-8-2—Anti-Degradation Policy, section 45-8-4—Ambient Air Quality Standards, section 45-8-5—Methods of Measurement, and section 45-8-6—Reference Conditions.

III. Proposed Action

EPA is proposing to approve the West Virginia SIP revision regarding the incorporation by reference of the NAAQS for sulfur dioxide, particulate matter, carbon monoxide, ozone, nitrogen dioxide, and lead into 45CSR8—*Ambient Air Quality Standards*, which was submitted on July 12, 2011. EPA is soliciting public comments on the issues discussed in this document. These comments will be considered before taking final action.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
 - Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
 - Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
 - Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
 - Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
 - Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
 - Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
 - Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
 - Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- In addition, the proposed approval of the West Virginia SIP revision regarding the incorporation by reference of the NAAQS for sulfur dioxide, particulate matter, carbon monoxide, ozone, nitrogen dioxide, and lead into 45CSR8-Ambient Air Quality Standards, does not have tribal implications as specified by Executive Order 13175 (65 FR 67249,

November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

Approval and Promulgation of Implementation Plans; Wisconsin; Volatile Organic Compound Emission Control Measures for Milwaukee and Sheboygan Ozone Nonattainment Areas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On September 1, 2009, November 16, 2011, and January 26, 2012, the Wisconsin Department of Natural Resources (WDNR) submitted several volatile organic compound (VOC) rules for approval into its State Implementation Plan (SIP). The purpose of these rules is to satisfy the Clean Air Act's (the Act) requirement that states revise their SIPs to include reasonably available control technology (RACT) for sources of VOC emissions in moderate ozone nonattainment areas. Wisconsin's VOC rules provide RACT requirements for the Milwaukee-Racine and Sheboygan 8-hour ozone nonattainment areas. These rules are approvable because they are consistent with the Control Technique Guideline (CTG) documents issued by EPA in 2006 and 2007 and satisfy the RACT requirements of the Act.
