Title: Background Checks for Contractor Employees.

ICR numbers: EPA ICR No. 2159.05, OMB Control No. 2030-0043.

ICR Status: This ICR is scheduled to expire on April 30, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The EPA uses contractors to perform services throughout the nation with regard to environmental emergencies involving the release, or threatened release, of oil, radioactive materials, or hazardous chemicals that may potentially affect communities and the surrounding environment. The Agency may request contractors responding to any of these types of incidents to conduct background checks and apply Government-established suitability criteria in determining whether employees are acceptable to perform on given sites or on specific projects. In addition to emergency response contractors, EPA may require background checks for contractor personnel working in sensitive sites or sensitive projects. The background checks and application of the Government's suitability criteria must be completed prior to contract employee performance. The contractor shall maintain records associated with all background checks. Background checks cover citizenship or valid visa status, criminal convictions, weapons offenses, felony convictions, and parties

prohibited from receiving federal contracts.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated on average to be one hour per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: EPA Contractor Employee Who Work at Sensitive Sites.

Estimated Number of Respondents: 1,000.

Frequency of Response: Annual.

Estimated Total Annual Hour Burden: 1,000.

Estimated Total Annual Cost: \$186,730 includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is no change in the hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Title: Drug Testing for Contract Employees.

ICR numbers: EPA ICR No. 2183.05, OMB Control No. 2030–0044.

ICR Status: This ICR is scheduled to expire on June 30, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The EPA uses contractors to perform services throughout the nation in response to environmental emergencies involving the release, or threatened release, of oil, radioactive materials or hazardous chemicals that may potentially affect communities and the surrounding environment. Releases may be accidental, deliberate, or may be caused by natural disasters. Contractors responding to any of these types of incidents may be responsible for testing their employees for the use of marijuana, cocaine, opiates, amphetamines, phencyclidine (PCP), and any other controlled substances. The testing for drugs must be completed prior to contract employee performance. The contractor shall maintain records associated with all drug tests.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated on average to be 2.25 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency.

This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: EPA contractor employees who work at sensitive sites.

Estimated Number of Respondents: 450.

Frequency of Response: Quarterly.

Estimated Total Annual Hour Burden: 1012.5.

Estimated Total Annual Cost: \$102,870 includes \$0 annualized capital or O&M costs.

Changes in the Estimates: This ICR represents an increase from 450 hours to 1,012.5 hours from the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. The difference is in the amount of time allocated for an employee to provide a sample. The previous estimate did not take into account time for the employee to travel to and from the testing lab. Market research indicates the average time for an employee to travel to and from a testing site and provide a sample is 1.5 hours versus the fifteen minutes previously estimated.
