[Based on August 20–September 1, 2011, and December 6–7, 2011, Baseline Inspection]

RH waste characterization process elements	SRS—CCP RH waste characterization process—T1 changes	SRS—CCP RH waste characterization process—T2 changes*

* SRS—CCP will report all T2 changes to EPA every three months.

** Substantive modification refers to a change with the potential to affect SRS—CCP's RH waste characterization process; e.g., the use of an inherently different type of measurement instrument or the use of probes not described in CCP—TP—504, excluding changes related solely to safety or to address administrative concerns.

*** Notification to EPA is not necessary when document updates are editorial in nature or are required solely to address administrative concerns.

IV. Availability of the Baseline Inspection Report for Public Comment

EPA has placed the report discussing the results of the Agency's inspection of the SRS—CCP Site in the public docket as described in **ADDRESSES**. In accordance with 40 CFR 194.8, EPA is providing the public 45 days to comment on these documents. The Agency requests comments on the proposed approval decision, as described in the inspection report. EPA will accept public comment on this notice and supplemental information as described in Section 1 above. The Agency will not make a determination of compliance before the 45-day comment period ends. At the end of the public comment period, EPA will evaluate all relevant public comments and revise the inspection report as necessary. If appropriate, the Agency will then issue a final approval letter and inspection report, both of which will be posted on the WIPP Web site.

Information on the certification decision is filed in the official EPA Air Docket, Docket No. A-93-02 and is available for review in Washington, DC, and at the three EPA WIPP informational docket locations in Albuquerque, Carlsbad, and Santa Fe, New Mexico. The dockets in New Mexico contain only major items from the official Air Docket in Washington, DC, plus those documents added to the official Air Docket since the October 1992 enactment of the WIPP LWA.

The *Public Notice* and related Commission documents may be purchased from the Commission's duplicating contractor, Best Copy and Printing, Inc. (BCPI), 445 12th Street SW., Room CY-B402, Washington, DC 20554, telephone 800-

378–3160, or you may contact BCPI at its Web site: <http://www.BCPIWEB.com>. The *Public Notice* and related documents also are available on the Internet at the Commission's Web site: <http://wireless.fcc.gov/auctions/901/> or by using the search function for AU Docket No. 12–25 on the Commission's Electronic Comment Filing System (ECFS) Web page at <http://www.fcc.gov/cgb/ecfs/>.

1. The Wireless Telecommunications and Wireline Competition Bureaus (the Bureaus) extend the deadline for filing comments and reply comments on census block eligibility challenges. Interested parties should file comments challenging the Bureaus' determinations with respect to the potential eligibility of specific census blocks for Mobility Fund Phase I support by March 16, 2012. Reply comments on such challenges should be filed no later than March 26, 2012. With respect to all other issues in this proceeding, the comment and reply comment deadlines are unchanged and respectively remain February 24, 2012, and March 9, 2012.

2. On February 2, 2012, the Bureaus released the *Auction 901 Comment Public Notice*, 77 FR 7152, February 10, 2012, which seeks comment on auction procedures and certain related program requirements for Auction 901, a reverse auction to award \$300 million in one-time Mobility Fund Phase I support, scheduled for September 27, 2012. Auction 901 will award Mobility Fund Phase I support to carriers that commit to provide 3G or better mobile voice and broadband services in census blocks where such services are unavailable.

3. As required by the Commission in the *USF/ICC Transformation Order*, 76 FR 73830, November 29, 2011 and 76 FR 81562, December 28, 2011, the Bureaus announced in the *Auction 901 Comment Public Notice* that they would use January 2012 American Roamer data to determine the availability of 3G or better service at the centroid of individual census blocks. Because the Bureaus had not concluded their analysis of the January 2012 American Roamer data, they provided a preliminary list of such blocks based on their analysis of earlier data. On February 10, 2012, the Bureaus released the updated list of census blocks potentially eligible for Mobility Fund Phase I support, based on January 2012 American Roamer data. The *Auction 901 Comment Public Notice* asked commenters to identify any census blocks that should be added or

subtracted from the updated list of potentially eligible census blocks and provide supporting evidence for their assertions. The *Auction 901 Comment Public Notice* stated that the Bureaus would consider such challenges only in the form of comments to that Public Notice.

4. On February 13, 2012, the Commission received two motions requesting additional time for the review of the American Roamer data and the filing of census block eligibility challenges. The Bureaus found that a limited extension of time for the consideration of census block eligibility challenges will serve the public interest and will not prejudice any interested party given the issues involved in identifying potentially eligible census blocks and in light of the Bureaus recent release of an updated list of potentially eligible blocks based on January 2012 American Roamer data. The Bureaus therefore extended to March 16, 2012, the deadline for filing comments challenging the potential eligibility of particular census blocks for Mobility Fund Phase I Funding and the reply comment deadline to March 26, 2012.
