SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation at 5 CFR 1320.8(d), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility and clarity of the information to be collected;

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., in submission of responses).

In compliance with these requirements, NHTSA asks for public comment on the additional information the agency is proposing to collect under the existing collection of information:

Title: Consolidated Vehicle

Information for the General Public.

OMB Control Number: 2127-0629.

Affected Public: Manufacturers that sell motor vehicles under 10,000

pounds in the United States.

Abstract: NHTSA's mission is to save lives, prevent injury and reduce motor vehicle crashes. Consumer information programs are an important tool for improving vehicle safety through market forces and providing caregivers information about child seats that fit in their vehicles.

On February 25, 2011, NHTSA published in the **Federal Register** a "Request for comments" notice (76 FR 10637) describing in detail a new consumer information program, as part of the New Car Assessment Program, to help parents and caregivers find a child restraint system ("child safety seat") that fits their vehicle. Under the new program, NHTSA will make available on the agency's Web site, www.safercar.gov, information from vehicle manufacturers as to the specific child safety seats the manufacturers recommend for individual vehicles. NHTSA also plans to use these recommendations when responding to public inquiries. The agency anticipates that this new program will provide consumer service by offering guidance on vehicle-CRS matchups and making it easier for parents and caregivers to select a child safety seat that fits in their vehicle.

The agency has attempted to coordinate and reduce the reporting burden associated with this new information collection effort by incorporating the new provisions into the currently approved collection, "Vehicle Information for the General Public" (OMB Control Number 2127-0629). For over 30 years, NHTSA has been providing consumers with vehicle
