NUCLEAR REGULATORY COMMISSION

[Docket No. 40–9901–MLA; ASLB No. 12–915–01–MLA–BD01]

Atomic Safety and Licensing Board Panel; Strata Energy, Inc.; Memorandum and Order (Notice of Hearing)

Before the Licensing Board: G. Paul Bollwerk, III, Chair, Dr. Richard F. Cole, Dr. Kenneth L. Mossman.

This proceeding concerns the January 4, 2011 application of Strata Energy, Inc., (SEI) for a combined source and Atomic Energy Act (AEA) section 11e(2) byproduct materials license pursuant to 10 CFR part 40. If issued, that license would authorize SEI to construct and operate an in situ recovery (ISR) uranium project at the Ross site in Crook County, Wyoming. In response to an October 27, 2011 notice of hearing and opportunity to petition for leave to intervene, see [SEI], Ross [ISR] Uranium Project, Crook County, WY; Notice of Materials License Application, FR 69,295 (Nov. 8, 2011).

The NRC staff issued a notice that a hearing will be conducted in this proceeding. The hearing will be governed by the informal hearing procedures set forth in 10 CFR part 2, Subparts C and L, 10 CFR 2.300–2.390, 2.1200–2.1213.

During the course of this proceeding, the Board may conduct an oral argument, as provided in 10 CFR 2.331; may hold additional prehearing conferences pursuant to 10 CFR 2.329; and may conduct evidentiary hearings in accordance with 10 CFR 2.327–2.328, 2.1206–2.1208. The public is invited to attend any oral argument, prehearing conference, or evidentiary hearing.

As outlined by the Commission in its decision in Sequoyah Fuels Corp. v. Coen, Oklahoma Site, CLJ–03–15, 58 NRC 349 (2003), section 11e(2) byproduct material is that material, as defined by AEA section 11e(2), 42 U.S.C. 2014e(2), that is “the tailings or wastes produced by the extraction or concentration of uranium or thorium from any ore processed primarily for its source material content.” This byproduct material category was created in 1978 by the Uranium Mill Tailings and Reclamation Act to afford the NRC regulatory jurisdiction over mill tailings at active and inactive uranium milling sites. See Sequoyah Fuels, CLJ–03–15, 58 NRC at 353–54.

Opportunity to Request a Hearing and to Petition for Leave to Intervene, and Commission Order Imposing Procedural Forms for Document Access to Sensitive Unclassified Non-Safeguards Information for Contention Preparation, 76 FR 41,308 (July 13, 2011), on October 27, 2011, two public interest groups, the Natural Resources Defense Council and the Powder River Basin Resource Council (collectively Joint Intervenors), filed a timely request for hearing and petition for leave to intervene contesting the SEI ISR application. On November 2, 2011, this three-member Atomic Safety and Licensing Board was established to preside over this proceeding. See [SEI]: Establishment of Atomic Safety and Licensing Board, 76 FR 69,295 (Nov. 8, 2011).

On December 20, 2011, the Board conducted a one-day initial prehearing conference, with counsel for SEI, the NRC staff, and the Joint Intervenors. During that prehearing conference, which was held in the Licensing Board Panel’s Rockville, Maryland hearing room, the Board heard oral presentations concerning Joint Intervenors’ standing to intervene and the admissibility of their five proffered environmental contentions. Thereafter, in a February 10, 2012 issuance, finding that each of the Joint Intervenors had established the requisite standing to intervene in this proceeding and that they had submitted four admissible contentions concerning the SEI application, the Board admitted Joint Intervenors as parties to this proceeding. See LBP–12–3, 75 NRC (Feb. 10, 2012), appeals pending.

In light of the foregoing, please take notice that a hearing will be conducted in this proceeding. The hearing will be governed by the informal hearing procedures set forth in 10 CFR part 2, Subparts C and L, 10 CFR 2.300–2.390, 2.1200–2.1213.

For the Nuclear Regulatory Commission.

Amy E. Cabbage,
Chief, Policy Branch, Division of Advanced Reactors and Rulemaking, Office of New Reactors.
