SUMMARY: In compliance with the
Paperwork Reduction Act (PRA) (44
U.S.C. 3501 et seq.), this document
announces that EPA is planning to
submit a request to the Office of
Environmental Protection
Agency.

BILING CODE 6560–50–P

ENVIRONMENTAL PROTECTION
AGENCY

Agency Information Collection
Activities; Proposed Collection;
Comment Request; Hazardous
Remediation Waste Management
Requirements (HWIR Contaminated
Media)

AGENCY: Environmental Protection
Agency.

ACTION: Notice.

For Further Information Contact:
Learia Williams, Monitoring,
Assistance, and Media Programs
Division, Office of Compliance, Mail
Code 2227A, Environmental Protection
Agency, 1200 Pennsylvania Avenue
NW., Washington, DC 20460; telephone
number: (202) 564–4113; fax number:
(202) 566–1752.

Supplementary Information: EPA has
submitted the following ICR to OMB for
review and approval according to the
procedures prescribed in 5 CFR 1320.12.
On May 9, 2011 (76 FR 26900), EPA
sought comments on this ICR pursuant
to 5 CFR 1320.8(d), EPA received no
comments. Any additional comments on
this ICR should be submitted to EPA
and OMB within 30 days of this notice.

EPA has established a public docket
for this ICR under docket ID number
EPA–HQ–OECA–2011–0236, which is
available for public viewing online at
http://www.regulations.gov, in person
viewing at the Enforcement and
Compliance Docket Center (EPA/DC), EPA
West, Room 3334, 1301 Constitution Avenue
NW., Washington, DC. The EPA Docket
Center Public Reading Room is open
from 8:30 a.m. to 4:30 p.m., Monday
through Friday, excluding legal
holidays. The telephone number for the
Reading Room is (202) 566–1744, and the
telephone number for the
Enforcement and Compliance Docket is
(202) 566–1752.

Use EPA’s electronic docket and
comment system at http://www.
regulations.gov to submit or view public
comments, access the index listing of
the contents of the docket, and to access
those documents in the docket that are
available electronically. Once in the
system, select “docket search,” then key
in the docket ID number identified
above. Please note that EPA’s policy is
that persons, whether respondents,
operators, or others, who submit
information, processing and verifying
information, and disclosing and providing information; adjust
the existing ways to comply with any
previously applicable instructions and
requirements which have subsequently changed; train personnel to be able to respond to a collection of information;
search data sources; complete and
transmit the collection of information;
and disclose the information.
Respondents/Affected Entities:
Ferroalloys production area sources
facilities.

Estimated Number of Respondents:
10.

Frequency of Response: Initially, and
annually.

Estimated Total Annual Hour Burden:
345.

Estimated Total Annual Cost:
$33,035, which includes $33,035 in
labor costs, no capital/startup costs, and
no operation and maintenance (O&M)
costs.

Changes in the Estimates: There is a
decrease in Respondent labor burden
cost and cost from the most recently
approved ICR. The decrease is due to a
reduction in initial compliance costs as
existing respondents are already
expected to be in compliance with the
regulations. Also, there is an increase in
Agency costs due to an adjustment in
labor rates, which have increased over
the past three years and the cost
calculations in this ICR have been
updated to reflect the most recent labor
rates.

John Moses,
Director, Collection Strategies Division.
[FR Doc. 2012–4602 Filed 2–27–12; 8:45 am]
Management and Budget (OMB) to renew an existing approved Information Collection Request (ICR) concerning the hazardous remediation waste management requirements. This ICR is scheduled to expire on July 31, 2012. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before April 30, 2012.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–HQ–RCRA–2012–0114, by one of the following methods:

- www.regulations.gov: Follow the on-line instructions for submitting comments.
- Email: rcra-docket@epa.gov.
- Fax: 202–566–9744.
- Hand Delivery: 1301 Constitution Ave. NW., Room 3334, Washington, DC 20460. Such deliveries are only accepted during the Docket’s normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA–HQ–RCRA–2012–0114. EPA’s policy is that all comments received will be included in the public docket without change and may be made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or email. The www.regulations.gov Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through www.regulations.gov your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD–ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA’s public docket visit the EPA Docket Center homepage at http://www.epa.gov/epahome/dockets.htm.

FOR FURTHER INFORMATION CONTACT:
Mike Fitzpatrick, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: 703–308–8411; fax number 703–308–8617; email address: fitzpatrick.mike@epa.gov.

SUPPLEMENTARY INFORMATION:

How can I access the docket and/or submit comments?

EPA has established a public docket for this ICR under Docket ID No. EPA–HQ–RCRA–2012–0114, which is available for online viewing at www.regulations.gov, or in person viewing at the RCRA Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The EPA/DC Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566–1744, and the telephone number for RCRA Docket is (202) 566–0270.

Use www.regulations.gov to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the public docket that are available electronically. Once in the system, select “search,” then key in the docket ID number identified in this document.

What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
(ii) Evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
(iii) Enhance the quality, utility, and clarity of the information to be collected;
(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under DATES.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and Federal Register citation.

What information collection activity or ICR does this apply to?

Affected entities: Entities potentially affected by this action are business or other for-profit.

Title: Hazardous Remediation Waste Management Requirements (HWIR Contaminated Media).

ICR numbers: EPA ICR No. 1775.06, OMB Control No. 2050–0161.

ICR status: This ICR is currently scheduled to expire on July 31, 2012. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in title 40 of the CFR, after appearing in the Federal Register when approved, are listed in 40 CFR part 9, are displayed either by publication in the Federal Register or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.
Abstract: The Resource Conservation and Recovery Act of 1976 (RCRA), as amended, requires EPA to establish a national regulatory program to ensure that hazardous wastes are managed in a manner protective of human health and the environment. Under this program (known as the RCRA Subtitle C program), EPA regulates newly generated hazardous wastes, as well as hazardous remediation wastes (i.e., hazardous wastes managed during cleanup). To facilitate prompt and protective treatment, storage, and disposal of hazardous remediation wastes, EPA established three requirements for remediation waste management sites that are different from those for facilities managing newly generated hazardous waste: (1) Performance standards for remediation waste management sites (40 CFR 264.1(i)); (2) a provision excluding remediation waste management sites from requirements for facility-wide corrective action; and (3) a new form of RCRA permit for treating, storing, and disposing of hazardous remediation wastes (40 CFR part 270, subpart H). The new permit, a Remedial Action Plan (RAP), streamlines the permitting process for remediation waste management sites to allow cleanups to take place more quickly.

In addition, EPA created a new kind of unit called a “staging pile” (40 CFR 264.554) that allows more flexibility in storing remediation waste during cleanup. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: For owners/operators of hazardous remediation waste management sites subject to the 40 CFR 264.1(i) and part 270, subpart H requirements, the reporting burden is estimated to be 27.3 hours per respondent per year. This hourly burden includes time for preparing and submitting a RAP application, information to modify a RAP, and information to transfer a RAP. The recordkeeping burden is estimated to be 42.13 hours per respondent per year. This hourly burden includes time for reading the regulations and maintaining documentation (e.g., waste analyses results, contingency and emergency plan, file of RAP documents) on site. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency’s estimate, which is only briefly summarized here:

- Estimated total number of potential respondents: 215.
- Frequency of response: One-time.
- Estimated total average number of responses for each respondent: One.
- Estimated total annual burden hours: 6,953 hours.
- Estimated total annual costs: $483,576, which includes $459,103 annualized labor and $24,473 annualized capital or O&M costs.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1204.12. At that time, EPA will issue another Federal Register notice pursuant to 5 CFR 1204.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under FOR FURTHER INFORMATION CONTACT.

Suzanne Rudzinski,
Director, Office of Resource Conservation and Recovery.
