

received in those focus group sessions. We agree that responses will vary depending on the professional group and anticipate this. We developed this survey with professional researchers who develop surveys, and this was also

tested internally. We trust that the questions and how they are asked are what we need in order to inform any further actions on medical device labeling content and format development. In regard to conducting

objective usability tests with a range of medical device types, we encourage others to perform these types of tests and share the results with FDA.
