and provides overall substantive and resource management. Professional staff consists of attorneys and dispute resolution specialists who conduct ADR interventions and training.

F. The Operations Division provides paralegal and other professional administrative staff support to each of the DAB’s divisions, including administrative assistance with pre-hearing proceedings, preparing certified records for submission to Federal courts, preparing responses to Freedom of Information Act requests, and providing overall clerical support. Other primary functions include: (1) Coordinating contracting and purchasing requirements of the DAB; (2) coordinating travel arrangements; (3) overseeing facilities management; and (4) overseeing office security and safety. The Division is headed by a Director who provides overall resource management.

III. Delegations of Authority. All delegations and redelegations of authority made to officials and employees of affected organizational components will continue in them or their successors pending further redelegation, provided that they are consistent with this reorganization.

E.J. Holland, Jr.,
Assistant Secretary for Administration.

SUMMARY: The Centers for Disease Control and Prevention (CDC), located within the Department of Health and Human Services (HHS), announces fees for vessel sanitation inspections. These inspections are conducted by CDC’s Vessel Sanitation Program (VSP). VSP assists the cruise line industry in fulfilling its responsibility for developing and implementing comprehensive sanitation programs to minimize the risk for acute gastroenteritis. Every vessel that has a foreign itinerary and carries 13 or more passengers is subject to twice-yearly inspections and, when necessary, re-inspection.

DATES: These fees are effective March 2, 2012.

SUPPLEMENTARY INFORMATION:

Purpose and Background

CDC established VSP in the 1970s as a cooperative activity with the cruise ship industry. VSP assists the cruise ship industry to prevent and control the introduction, transmission, and spread of gastrointestinal illnesses on cruise ships. VSP operates under the authority of the Public Health Service Act (42 U.S.C. 264, “Control of Communicable Diseases”). Regulations under 42 CFR 71.41 (Foreign Quarantine—Requirements Upon Arrival at U.S. Ports: Sanitary Inspection; General Provisions) states that carriers arriving at U.S. Ports from foreign areas are subject to sanitary inspections to determine whether there exists rodent, insect, or other vermin infestations, contaminated food or water, or other sanitary conditions requiring measures for the prevention of the introduction, transmission, or spread of communicable diseases.

The fee schedule for sanitation inspections of passenger cruise ships inspected under VSP was first published in the Federal Register on November 24, 1987 (52 FR 45019). CDC began collecting fees on March 1, 1988. This notice announces fees that are effective March 2, 2012.

The following formula is used to determine the fees:

Average cost per inspection =

\[
\frac{\text{Total cost of VSP}}{\text{Weighted number of annual inspections}}
\]

The average cost per inspection is multiplied by size and cost factors to determine the fee for vessels in each size category. The size and cost factors were established in the proposed fee schedule published in the Federal Register on July 17, 1987 (52 FR 27060). The fee schedule was most recently published in the Federal Register on November 26, 2008 (73 FR 72053). The current size and cost factors are presented in Appendix A.
