FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

On November 3, 2011, a notice was published in the **Federal Register** (76 FR 68161) that a request for a permit to conduct research on marine mammals had been submitted by the above-named applicant. The Whale Museum proposes to monitor and record vessel activities around marine mammal species routinely encountered by commercial and recreational vessels in the inland waters of Washington State. This research would contribute to a long-

term data set (Orca Master) that has provided critical information on characterizing annual vessel trends around Southern Resident killer whales and an evaluation of the effectiveness of federal, state and local marine wildlife guidelines and regulations through the Soundwatch program. Research methods would include close vessel approach for photo-identification, behavioral observation, and monitoring. The main focus species are killer whales (*Orcinus orca*) from the Southern Resident stock. Additionally, Pacific white-sided dolphins (*Lagenorhynchus obliquidens*), Dall's porpoise (*Phocoenoides dalli*), harbor porpoise (*Phocoena phocoena*), eastern gray whale (*Eschrichtius robustus*), humpback whale (*Megaptera novaeangliae*), non-ESA listed killer whale, and minke whale (*Balaenoptera acutorostrata*) may be harassed.

Under the pending permit application, The Whale Museum is requesting a change in Principal Investigator (PI) due to personnel changes within their organization. They request to have Eric Eisenhardt be designated as the new PI. No other changes to the permit application are requested.

Dated: February 27, 2012.

Acting Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XA914

Marine Mammals; File No. 16998

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; denial of permit.

SUMMARY: Notice is hereby given that an application for a scientific research permit (File No. 16998) submitted by Mr. Gregory Walker, University of Alaska Fairbanks, Fairbanks, AK, has been denied.

ADDRESSES: The application and related documents are available for review upon written request or by appointment in the following office(s):

Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705,

Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376; and Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802-1668; phone (907) 586-7221; fax (907) 586-7249.

FOR FURTHER INFORMATION CONTACT: Tammy Adams or Laura Morse, (301) 427-8401.

SUPPLEMENTARY INFORMATION: On January 4, 2012, a notice was published in the *Federal Register* (77 FR 268) that an application had been filed by the above named applicant for a permit to harass 13,000 Steller sea lions (*Eumetopias jubatus*), 200 harbor seals (*Phoca vitulina*), 10 killer whales (*Orcinus orca*), 10 humpback whales (*Megaptera novaeangliae*), and 10 northern fur seals (*Callorhinus ursinus*) over the course of a one-year permit. The objective was to conduct low-altitude (75 to 120 meters) aerial surveys of rookeries and haul outs using ship-based unmanned aircraft to demonstrate novel methods for imaging Steller sea lion terrestrial habitat in the Aleutian Islands with the accuracy and fidelity necessary for population surveys and at a cost low enough to allow frequent monitoring.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination was made that the activities proposed were consistent with the Preferred Alternative in the Final Programmatic Environmental Impact Statement (PEIS) for Steller Sea Lion and Northern Fur Seal Research (NMFS 2007), and that issuance of the permit would not have a significant adverse impact on the human environment. Comments received on the application after publication of the notice of receipt suggested that an environmental assessment (EA) or other supplemental analysis was warranted due to the lack of information in the PEIS regarding potential effects of such low-altitude surveys. The regulations governing the taking and importing of marine mammals (50 CFR part 216) stipulate that, under these circumstances, the permit be denied unless an EA is prepared with a finding of no significant impact.

The requested permit has been denied subject to the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216), because there is not time to prepare an EA and make a finding of no significant impact before the proposed field season. The application may be re-submitted with information necessary to prepare an EA and would be processed as a new

application, with opportunity for public review and comment.

Acting Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.
