

The areas of degradation are not always consistent in their characteristics. The degradation may not occur along the complete pipe length, but rather may start and stop within a relatively short section of pipe and then reoccur in another area further down the segment. In addition, the operator and manufacturer have observed instances of degradation on only one side of the pipe with the other side having no indication of degradation.

The root cause of the degradation has not been determined. All reported cases have occurred in the southwestern United States where average ambient temperatures are very high, but this may or may not be a contributing factor. The manufacturer does not have evidence that the degraded pipe condition developed from or as a result of the manufacturing process. The manufacturer does not believe the issue to be associated with a particular resin lot. While a review of records has identified some changes in the resin formulation during the time period, the manufacturer does not believe that these changes contributed to the issue. The reporting operators have not identified any other construction or installation practices or conditions that are common to the known occurrences of degraded pipe.

PHMSA has asked the manufacturer to describe the problem and its extent and has requested information related to manufacturing, construction practices, and testing recommendations. Those questions and responses, along with pictures of degraded pipe, are available on the docket associated with this advisory.

The manufacturer is communicating with known customers, regulators, and industry groups as new information becomes available and the operators with known cases of degraded pipe continue to communicate with the appropriate regulatory authorities.

II. Advisory Bulletin (ADB-2012-03)

To: Operators using Driscopipe® 8000 High Density Polyethylene Pipe.

Subject: Potential for Material Degradation of Driscopipe® 8000.

Advisory: PHMSA advises all operators using Driscopipe® 8000 of the potential for material degradation. PHMSA encourages operators to communicate and work with the manufacturer and their respective regulatory authorities to consider and implement any actions that are needed to address the issue as it relates to their systems.

Operators using Drisco8000 pipe who have not already received communications from the manufacturer

are encouraged to contact the manufacturer so they can receive future updates and determine whether their systems are susceptible to degradation. For additional information, contact Karen S. Lively, P.E., Technical Manager, Performance Pipe, a division of Chevron Phillips Chemical Company LP, by phone at 972-599-7413 or email at livekls@cpchem.com. Operators using Drisco8000 pipe are encouraged to inform the relevant regulatory authority and work together to determine what, if any, actions are needed to monitor and address the issue within their systems.

Due to the uncertainty of the root cause of the material degradation, PHMSA cannot provide specific guidance on how best to address the issue. However, PHMSA urges all operators using Drisco8000 pipe to consider the use of accelerated and more frequent leak surveys in those areas where degraded pipe is known or suspected to exist.

All operators using Drisco8000 pipe are encouraged to work with all stakeholders to determine how to address discovery and repair within their systems, taking the most conservative approach and keeping pipeline integrity and public safety a priority.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Art Advisory Panel of the Commissioner of Internal Revenue

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of determination of necessity for renewal of the Art Advisory Panel.

SUMMARY: It is in the public interest to continue the existence of the Art Advisory Panel. The current charter of the Art Advisory panel will be renewed for a period of two years.

FOR FURTHER INFORMATION CONTACT:

Ruth Vriend, C:AP:P&V:ART, 1099 14th

Street NW., Room 4200E, Washington, DC 20005, Telephone No. (202) 435-5739 (not a toll free number).

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. (2000), the Commissioner of Internal Revenue announces the renewal of the following advisory committee:

Title. The Art Advisory Panel of the Commissioner of Internal Revenue.

Purpose. The Panel assists the Internal Revenue Service by reviewing and evaluating the acceptability of property appraisals submitted by taxpayers in support of the fair market value claimed on works of art involved in Federal Income, Estate or Gift taxes in accordance with sections 170, 2031, and 2512 of the Internal Revenue Code of 1986.

In order for the Panel to perform this function, Panel records and discussions must include tax return information. Therefore, the Panel meetings will be closed to the public since all portions of the meetings will concern matters that are exempted from disclosure under the provisions of section 552b(c)(3), (4), (6) and (7) of Title 5 of the U.S. Code. This determination, which is in accordance with section 10(d) of the Federal Advisory Committee Act, is necessary to protect the confidentiality of tax returns and return information as required by section 6103 of the Internal Revenue code.

Statement of Public Interest. It is in the public interest to continue the existence of the Art Advisory Panel. The Secretary of Treasury, with the concurrence of the General Services Administration, has also approved renewal of the Panel. The membership of the Panel is balanced between museum directors and curators, art dealers and auction representatives to afford differing points of view in determining fair market value.

Authority for this Panel will expire two years from the date the Charter is approved by the Assistant Secretary for Management and Chief Financial Officer and filed with the appropriate congressional committees unless, prior to the expiration of its Charter, the Panel is renewed.

The Commissioner of Internal Revenue has determined that this document is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required. Neither does this document constitute a rule subject to
