the support that it receives; (2) submit a five-year plan that describes with specificity proposed improvements or upgrades to the applicant’s network throughout its proposed service area, with an estimate of the area and population that will be served as a result of the improvements; (3) demonstrate how it will remain functional in emergency situations; and (4) demonstrate that it will satisfy consumer protection and service quality standards.

6. Certain additional requirements apply for parties seeking ETC designation for a service area that includes an area served by a rural telephone company. In such cases, the party’s service area will be the rural telephone company’s study area unless and until the Commission and the relevant State establish a different definition of the study area, after taking into account factors established by a Federal State Joint Board instituted under the Communications Act. A petitioner seeking designation for a service area that includes, but is not the same as, a rural telephone company’s service area must request redefinition. If the Commission grants redefinition, it will then seek agreement from the state commission with jurisdiction over the rural telephone company, even if the petitioner itself is not subject to that state commission’s jurisdiction.

7. Pleading Cycle. Consistent with existing Commission procedures regarding designation of eligible telecommunications carriers, upon receipt of a petition for designation pursuant to 47 U.S.C. 214(e)(6) in connection with Phase I of the Mobility Fund, the Commission will issue a public notice establishing a pleading cycle.

Federal Communications Commission.
