### Comment Sought on Funding Pilot Program Participants Transitioning Out of the Rural Health Care Pilot Program in Funding Year 2012

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice; solicitation of comments.

**SUMMARY:** In this document, the Wireline Competition Bureau seeks comment on whether to fund Rural Health Care Pilot Program (Pilot Program) participants who will exhaust funding allocated to them before or during funding year 2012 (July 1, 2012-June 30, 2013). This funding would maintain support for qualifying Pilot Program participants, on an interim basis, during the 2012 funding year to provide time to establish a process to transition them into the permanent Rural Health Care support mechanism (RHC support mechanism).

**DATES:** Comments are due on or before April 18, 2012. Reply comments are due on or before May 3, 2012.

**ADDRESSES:** Interested parties may file comments on or before April 18, 2012. All pleadings are to reference WC Docket No. 02-60. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS), or by filing paper copies, by any of the following methods:

- *Electronic Filers:* Comments may be filed electronically using the Internet by accessing the ECFS: <http://fjallfoss.fcc.gov/ecfs2/>.

- *Paper Filers:* Parties who choose to file by paper must file an original and four copies of each filing. If more than one docket or rulemaking number appears in the caption of this proceeding, filers must submit two additional copies for each additional docket or rulemaking number.

- *People with Disabilities:* To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an email to [fcc504@fcc.gov](mailto:fcc504@fcc.gov) or call the Consumer & Governmental Affairs Bureau at (202) 418-0530 (voice), (202) 418-0432 (tty).

**SUPPLEMENTARY INFORMATION:** This is a synopsis of the Commission's Public Notice in WC Docket No. 02-60; DA 12-273, released February 27, 2012. 1. The Wireline Competition Bureau (Bureau) seeks comment on whether to fund Rural Health Care Pilot Program (Pilot Program) participants who will exhaust funding allocated to them before or during funding year 2012 (July 1, 2012-June 30, 2013). This funding would maintain support for qualifying Pilot Program participants, on an interim basis, during the 2012 funding year to provide time to establish a process to transition them into the permanent Rural Health Care support mechanism (RHC support mechanism). To support these transitioning Pilot Program participants, the funds that were previously designated for projects that withdrew from the Program or otherwise failed to meet the June 30, 2011, deadline could be used without increasing overall demand.

#### I. Background

2. The rural health care telecommunications program ensures that rural health care providers pay no more than their urban counterparts for their telecommunications needs in the provision of health care services. The rural health care Internet access program provides a 25 percent discount off the cost of monthly Internet access

for eligible rural health care providers. Together the telecommunications and Internet access programs are commonly referred to as the "Primary Program."

3. In 2006, the Commission created a three-year Pilot Program to examine ways to use the RHC support mechanism to enhance public and non-profit health care providers' access to advanced telecommunications and information services. Participants in the Pilot Program are eligible to receive universal service funding to support up to 85 percent of the eligible costs of broadband infrastructure deployment of telehealth networks that connect to rural and urban health care providers in a State or region. Although the FCC originally selected 69 different projects to participate in the Pilot Program, only 50 projects are currently in existence today. Several projects merged and twelve projects either withdrew from the program or otherwise failed to meet the June 30, 2011 funding commitment deadline and were no longer eligible to participate in the Pilot Program. Funding that was designated to support these twelve projects totaled approximately \$30 million.

4. Approximately 484 individual health care providers (HCPs) participating in the Pilot Program are scheduled to transition out of the program during the 2012 funding year because their respective Pilot projects will have reached their funding cap under the *2007 Pilot Program Selection Order*, 73 FR 8670, February 14, 2008, and the HCPs will have exhausted the amounts of Pilot Program support allocated to them under the relevant funding commitment letters issued by USAC. These providers are members of networks, as was required by the Pilot Program, and they applied for Pilot funding as consortia (as explicitly permitted under section 254(h)(7)(B) of the Act). The rural HCPs that have exhausted their Pilot funding could seek support from the Primary Program in the 2012 funding year (July 1, 2012–June 30, 2013). Significant differences between Pilot and Primary Program rules regarding eligibility and funding may make it difficult, however, for Pilot Program participants to apply for funding in the Primary Program. One Pilot project (and its service provider) has already raised questions about transitioning to the funding mechanisms in the Primary Program.

5. In July 2010, the Commission sought comment on a number of issues, including how to transition Pilot Program participants to the ongoing rural health care support mechanism. We now seek more focused comment on supporting select Pilot Program

participants at their current funding levels to "bridge" the disparity in funding and application requirements between the Pilot Program and Primary Programs for the 2012–2013 funding year. The Commission recognized in the *2006 Pilot Program Order*, 71 FR 65517, November 8, 2006, that circumstances may necessitate additional funding for Pilot Program participants. Accordingly, this "bridge" funding could provide additional time to consider how best to transition Pilot Program participants, while preserving the connectivity that has been developed under the Pilot. To support these transitioning Pilot Program participants, the funds that were previously designated for projects that withdrew from the Program or otherwise failed to meet the June 30, 2011, deadline could be used without increasing overall demand.

6. *Exhaustion of Pilot Program Funds.* We seek comment on providing funds only to those participants that will have exhausted all Pilot Program funding allocated to them before or during funding year 2012 (July 1, 2012–June 30, 2013), as described above. USAC estimates that approximately 14 out of the existing 50 projects will have some individual health care providers that will have spent all of the money in their initial award. We seek comment on this proposal and how providing such funding for an additional year would impact the sustainability of the networks developed with Pilot Program funds.

7. *Support levels for 2012–2013 funding year.* We also seek comment on whether to maintain the existing level of support that these Pilot Program participants receive annually for their recurring costs. For instance, USAC could determine each participant's allocation for funding year 2012 by calculating the yearly average amount of support for recurring costs that participants have received over the life of their Pilot projects and fund them at that amount. Using this methodology, USAC estimates that it would cost approximately \$10 million to fund transitioning health care providers in funding year 2012. We seek comment on this proposal to maintain the current level of support for eligible Pilot Program participants' recurring costs. Alternatively, those recipients could receive a lower discount than the current 85 percent. Commenters who suggest alternative funding support levels should offer explanation why the funding level should be different than what is currently provided in the Pilot Program.

8. *Duration.* Pilot Program participants who meet eligibility

requirements to receive transitional funding would only be eligible to receive funds for the 2012 funding year (July 1, 2012–June 30, 2013). We seek comment on this proposal. Commenters who suggest that Pilot Program participants should be eligible for funding for a different period of time should provide reasoning for their proposal.

In addition, therefore, it does not contain any new or modified information burden for small business concerns with fewer than 25 employees, pursuant to the Small Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4).

## FEDERAL HOUSING FINANCE AGENCY

[No. 2012-N-02]

### Notice of Annual Adjustment of the Cap on Average Total Assets That Defines Community Financial Institutions

**AGENCY:** Federal Housing Finance Agency.

**ACTION:** Notice.

**SUMMARY:** The Federal Housing Finance Agency (FHFA) has adjusted the cap on average total assets that defines a "Community Financial Institution" based on the annual percentage increase in the Consumer Price Index for all urban consumers (CPI-U) as published by the Department of Labor (DOL). These changes took effect on January 1, 2012.

**FOR FURTHER INFORMATION CONTACT:**

Patricia L. Sweeney, Division of Federal Home Loan Bank Regulation, 202-649-3311, [Pat.Sweeney@fhfa.gov](mailto:Pat.Sweeney@fhfa.gov), or Eric M. Raudenbush, Assistant General Counsel, 202-649-6421,

[Eric.Raudenbush@fhfa.gov](mailto:Eric.Raudenbush@fhfa.gov), Federal Housing Finance Agency, 400 Seventh Street SW., Washington, DC 20024.

**SUPPLEMENTARY INFORMATION:**

#### I. Statutory and Regulatory Background

The Federal Home Loan Bank Act (Bank Act) confers upon insured depository institutions that meet the statutory definition of a "Community Financial Institution" (CFI) certain advantages over non-CFI insured depository institutions in qualifying for Federal Home Loan Bank (Bank) membership, and in the purposes for which they may receive long-term advances and the collateral they may pledge to secure advances.<sup>1</sup> Section 2(10)(A) of the Bank Act and § 1263.1 of FHFA's regulations define a CFI as any Bank member the deposits of which are insured by the Federal Deposit Insurance Corporation and that has average total assets below a statutory cap.<sup>2</sup> The Bank Act was amended in 2008 to set the statutory cap at \$1 billion and to require the Director of FHFA to adjust the cap annually to reflect the percentage increase in the

CPI-U, as published by the DOL, for the prior year.<sup>3</sup> For 2011, FHFA set the CFI asset cap at \$1,041,000,000, which reflected a 1.1 percent increase over 2010, based upon the increase in the CPI-U between 2009 and 2010. Due to a transcription error, the agency's **Federal Register** notice announcing the CFI asset cap adjustment for 2011 mistakenly stated that the cap had been set at \$1,040,000,000. *See* 76 FR 3142 (Jan. 19, 2011).

#### II. The CFI Asset Cap for 2012

As of January 1, 2012, FHFA has increased the CFI asset cap from \$1,041,000,000 (the correct number for 2011) to \$1,076,000,000 which reflects a 3.4 percent increase in the unadjusted CPI-U from November 2010 to November 2011. The new amount was obtained by rounding to the nearest million, as has been the practice for all prior adjustments. Consistent with the practice of other federal agencies, FHFA bases the annual adjustment to the CFI asset cap on the percentage increase in the CPI-U from November of the year prior to the preceding calendar year to November of the preceding calendar year, because the November figures represent the most recent available data as of January 1st of the current calendar year.

In calculating the CFI asset cap, FHFA uses CPI-U data that have not been seasonally adjusted (*i.e.*, the data have not been adjusted to remove the estimated effect of price changes that normally occur at the same time and in about the same magnitude every year). The DOL encourages use of unadjusted CPI-U data in applying "escalation" provisions such as that governing the CFI asset cap, because the factors that are used to seasonally adjust the data are amended annually, and seasonally adjusted data that are published earlier are subject to revision for up to five years following their original release. Unadjusted data are not routinely subject to revision, and previously published unadjusted data are only corrected when significant calculation errors are discovered.

Dated: March 5, 2012.
