Begun in 2010, the program supports the Commercial Space Transportation industry by identification, prioritization, and funding for Commercial Space Transportation infrastructure projects. This program has been previously referred to as the Commercial Space Transportation Grants Program.

The FAA/AST intends to continue funding the Space Transportation Infrastructure Matching Grants Program for FY 2012. However, funding has not been determined at this time. In order for the FAA/AST to swiftly execute grant awards within FY 2012, should funding be available, the FAA/AST is requesting grant applications at this time. so should there be available funding, the recipients will already be selected and the awards can be made within FY 2012. There remains the possibility that no funds will be available in FY 2012 for the Space Transportation Infrastructure Matching Grants Program. If no funds are available, no grant applications submitted in response to this Notice will be approved and funded.

This Notice will be the only solicitation made for FY 2012 projects and proposals. The FAA/AST will review and evaluate all applications for a grant received by the deadline, pursuant to 51 U.S.C. Chapter 511. The FAA/AST may make one or more grant awards based upon its evaluations of the submissions. All grants awarded under the Space Transportation Infrastructure Matching Grants Program are discretionary awards. Projects to be funded under the Space Transportation Infrastructure Matching Grants Program must carry out commercial space transportation infrastructure development, as defined in 51 U.S.C. 51101.
