

§ 438.201 Written plan.

No later than December 31, 2012, a written plan must be submitted to DOE that specifies each Federal fleet's strategy for meeting the consumption requirements set forth in section 438.101, including the interim milestones provided in section 438.103. Plans must be sent to the U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Federal Energy Management Program (EE-2L), 1000 Independence Avenue SW., Washington, DC 20585, or such other address as DOE may provide by notice in the **Federal Register**.

§ 438.202 Requisite elements.

The written plan must:

(a) Identify the specific measures that the Federal fleet will rely upon to meet the consumption requirements and interim milestones, such as plans for right-sizing the Federal fleet and strategies for reducing vehicle miles traveled;

(b) Quantify (in percentage and in gasoline gallon equivalents), for each measure set forth in the plan, the reduction in petroleum consumption, and the increase in alternative fuel consumption projected to be achieved by the measure in each FY;

(c) Specify the date by which each measure set forth in the plan will be implemented;

(d) Quantify the composition of the Federal fleet by vehicle class and fuel type, ensuring that it is correctly sized to support mission requirements in each FY;

(e) Specify actions to ensure that alternative fueled vehicles are acquired and located where the appropriate alternative fuel is available; and

(f) Quantify (in percentage) the use of alternative fuel by alternative fueled vehicles and low-speed electric vehicles in each FY.

§ 438.203 Revision.

Whenever an annual report under section 438.104 indicates that the Federal fleet failed to meet an interim milestone under section 438.103, the plan previously developed and submitted under this subpart must be revised and resubmitted to the DOE Federal Energy Management Program within 180 days of submission of the annual report.

SUPPLEMENTARY INFORMATION:**I. Background**

DoD is proposing to revise the DFARS clause at 252.225-7040, Contractor Personnel Authorized to Accompany U.S. Armed Forces Deployed Outside the United States, to expand coverage on contractor requirements and responsibilities regarding alleged crimes by or against contractor personnel. The expanded coverage is proposed to apply to contingency operations, humanitarian or peacekeeping operations, or other military operations when the latter are designated by the combatant commander. These requirements currently apply only to DoD contracts performed in Iraq and Afghanistan. Expanding the coverage worldwide will provide contractors the guidance they need to take actions if such alleged offenses occur.

Currently, the clause at 252.225-7040 is prescribed at 225.7402-5(a). The clause prescription requires insertion of the clause in solicitations and contracts that authorize contractor personnel to accompany U.S. Armed Forces deployed outside the United States in (1) contingency operations; (2) humanitarian or peacekeeping operations; or (3) other military operations or military exercises, when designated by the combatant commander. The expanded DFARS clause will require the contractor to provide information to contractor personnel who perform work on a contract in those countries about how and where to report an alleged crime and, for contractor personnel seeking whistleblower protection, where to seek assistance. The crimes referred to are alleged offenses under the Uniform Code of Military Justice (10 U.S.C. 47) or the Military Extraterritorial Jurisdiction Act (18 U.S.C. 212). The clause also provides a list of the appropriate investigative authorities to which suspected offenses can be reported, *e.g.*, "U.S. Army Criminal Investigations Division at <http://www.cid.army.mil/reportacrime.html>," and contact information for contractor personnel seeking whistleblower protection. This information is required by the terms of the clause to be provided to contractor personnel before they begin work on a contract in a deployed area.

II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits

(including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is a significant regulatory action and, therefore, was subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act

DoD does not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the requirement is only to provide information to contractor personnel regarding the appropriate investigative authorities to which suspected offenses can be reported and contact information for contractor personnel seeking whistleblower protection. However, an initial regulatory flexibility analysis has been performed and is summarized as follows:

The two key requirements being proposed are for the contractor to (a) report any alleged offenses against the Uniform Code of Military Justice (UCMJ) and the Military Extraterritorial Jurisdiction Act (MEJA) to appropriate investigative authorities and (b) give contractor personnel who work in covered areas information on how and where to report an alleged UCMJ or MEJA offense. The clause also would provide contact information for the three Service Criminal Investigative Agencies and the DoD Inspector General.

In FY 2010, DoD awarded 788 contracts for performance in Iraq and 1,051 contracts for performance in Afghanistan. Twenty percent of these contracts were awarded to small businesses. As DoD exits the areas of current contingency operations, *e.g.*, Iraq and Afghanistan, the total number of DoD contracts awarded for performance in the subject areas is expected to decrease by at least 50 percent. However, the proportion of these contracts that are awarded to small businesses is anticipated to remain the same. Therefore, this estimate is that there may be as many as 919 contracts awarded annually and approximately 184 of these contracts will be awarded to small businesses.

There are no projected reporting, recordkeeping, or other compliance requirements associated with the

proposed rule. The rule will apply equally to all contractors, large and small, performing in deployed areas. The rule does not duplicate, overlap, or conflict with any other Federal rules. The points of contact for reporting criminal acts and/or seeking whistleblower protection are listed in the clause. Contractor compliance requirements have been limited to passing this clear, available information to their personnel. No alternatives to the rule have been identified that could accomplish the objectives of the rule or minimize further its economic impact on small entities.

DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (DFARS Case 2012–D006), in correspondence.

IV. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).
