

company-specific rate established for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value investigation, but the producer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the subject merchandise; and (4) if neither the exporter nor the producer is a firm covered in this review, a prior review, or the investigation, the cash deposit rate will be 17.70 percent, the all-others rate established in the less-than-fair-value investigation. These deposit requirements shall remain in effect until further notice.

Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the presumption that reimbursement of antidumping and/or countervailing duties occurred and the subsequent increase in antidumping duties by the amount of antidumping and/or countervailing duties reimbursed.

Administrative Protective Order

This notice also is the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing these results and notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: March 5, 2012.

Decision: Approved. We know of no instruments of equivalent scientific value to the foreign instruments described below, for such purposes as

this is intended to be used, that was being manufactured in the United States at the time of order. *Reasons:* This instrument is unique in that it combines the sensitivity, long life, and reproducibility of thermopile sensors with a large internal working volume capable of containing the molten oxide solvents used for calorimetry and operating in the range 700–1000 degrees Celsius where such solvents are molten. Conventional differential scanning calorimeters, made by other companies, are completely different in design and do not feature the large sample volume surrounded by a sensitive detector that is essential for solution calorimetry.

Instrument: Berkeley Lab Laser Accelerator “BELLA” 1.3 petawatt laser system. *Manufacturer:* Thales Optronique S.A., France. *Intended Use:* See notice at 77 FR 5768, February 6, 2012. *Comments:* None received.

Decision: Approved. We know of no instruments of equivalent scientific value to the foreign instruments described below, for such purposes as this is intended to be used, that was being manufactured in the United States at the time of order. *Reasons:* Requirements of this system include that it is characterized by a short pulse, high intensity, Ti:sapphire laser able to demonstrate a 10 GeV laser-plasma accelerator module with a pulse energy of 40 Joules on target and a pulse duration of <40 femtoseconds at optimum compression with a repetition rate of 1HZ ± 5%.

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Gear-Marking Requirement for Atlantic Large Whale Take Reduction Plan

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing

effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before May 11, 2012.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Kate Swails, (978) 282–8481 or Kate.Swails@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

The purpose of this collection of information is to enable National Marine Fisheries Service (NMFS) to reduce the serious injury and mortality of large whales, especially right whales, due to incidental entanglement in the United States (U.S.) commercial fishing gear. Any persons setting trap/pot of gillnet gear in some areas of the Atlantic Ocean are required to paint or otherwise mark their gear with one or two color codes, designating the type of gear and area where the gear is set. The surface buoys of this gear need to be marked to identify the vessel or fishery. These marking requirements apply in the various management areas under the Atlantic Large Whale Take Reduction Plan (ALWTRP), developed under the authority of the Marine Mammal Protection Act.

The goals of this collection of information are to obtain more information on where large whales are being entangled and on what type of gear is responsible for the entanglement. This information will allow NMFS to focus further risk reduction measures in certain areas or fisheries, where needed, to meet the goals of the ALWTRP. Also, fisheries observers can provide information to managers on whether regulations need to be modified to address compliance or safety issues.

II. Method of Collection

Information collected is in the form of gear marking.

III. Data

OMB Control Number: 0648–0364.

Form Number: None.

Type of Review: Regular submission (extension of a currently approved collection).

Affected Public: Business or other for-profit organizations and individuals or households.

Estimated Number of Respondents: 4,270.

Estimated Time per Response: Gear marking per vessel, 2 hours and 25 minutes; trip notification to observers, 2 minutes.

Estimated Total Annual Burden Hours: 10,235.

Estimated Total Annual Cost to Public: \$6,755.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 6, 2012.
