Centers for Medicare & Medicaid Services

[Document Identifier: CMS–1880 and –1882; CMS–10939; and CMS–R–245]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.

In compliance with the requirements and burden estimates have not changed. Form Numbers: CMS–1880 (Request for Certification as a Supplier of Portable X-Ray Services), CMS–1882 (Medicare/Medicaid Portable X-Ray Survey Report), and OCN 0938–0027.

Frequency: Occasionally. Affected Public: State, Local, or Tribal Governments. Number of Respondents: 579. Total Annual Responses: 86. Total Annual Hours: 151. (For policy questions regarding this collection contact Georgia Johnson at 410–786–6850. For all other issues call 410–786–1326.)

2. Type of Information Collection Request: Existing collection in use without an OMB control number; Title of Information Collection: Medicare Beneficiary and Family-Centered Satisfaction Survey; Use: The data collection methodology used to determine Beneficiary Satisfaction scores (BSS) for Medicare Advantage and Medicare Part D plans.

The surveys are used to collect data on beneficiary satisfaction with their Medicare Advantage and Medicare Part D plans. The data is used by Medicare Advantage and Medicare Part D plans to improve the quality of care and services provided to beneficiaries.

The data is also used by CMS to assess the performance of Medicare Advantage and Medicare Part D plans and to make decisions about plan participation.

3. Beneficiary Surveys: The data is used to assess the performance of Medicare Advantage and Medicare Part D plans and to make decisions about plan participation.

4. Survey Administration: The survey is administered by an independent third-party contractor.

5. Frequency of Respondent Reporting: The survey is administered on a yearly basis.

6. Security of Respondent Information: The data is stored electronically and is protected with appropriate security measures.

7. Other Burden Estimates: The burden estimates are based on the number of respondents and the estimated time to complete the survey.
