On June 24, 1999, DOE issued Order No. EA-211, which authorized DTE Energy Trading to transmit electric energy from the United States to Canada as a power marketer for a two-year term

using existing international transmission facilities. DOE subsequently renewed that authority two additional times in Order No. EA-211-A on April 25, 2002 and in Order No. EA-211-B on April 18, 2007. The current authority will expire on April 25, 2012. On January 26, 2012, DTE Energy Trading filed an application with DOE for renewal of the export authority contained in Order No. EA-211-B for an additional five-year term.

The electric energy that DTE Energy Trading proposes to export to Canada would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States. The existing international transmission facilities to be utilized by DTE Energy Trading have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845> or by emailing Angela Troy at *Angela.Troy@hq.doe.gov*.
