Please explain why you believe a public meeting would be beneficial. Basis and Purpose

The U.S. Department of the Navy is sponsoring War of 1812 Bicentennial Commemorations in the Chesapeake Bay and Port of Baltimore, Maryland. Planned events include the scheduled arrival of U.S. and foreign naval vessels, public vessels, tall ships and other vessels beginning on June 12, 2012 and the scheduled departure of those vessels ending on June 20, 2012. The Coast Guard anticipates a large spectator fleet for these events. Operators should expect significant vessel congestion along the arrival and departure routes.

The purpose of these regulations is to promote maritime safety and protect participants and the boating public in the Port of Baltimore and the waters of the Chesapeake Bay immediately prior to, during, and after the scheduled events. The regulations will provide for clear passage of participating vessels, a safety buffer around the participating vessels while they are in transit for the benefit of participants and spectators. The regulations will impact the movement of all vessels operating in specified waters of the Chesapeake Bay, Patapsco River, Northwest Harbor and the Inner Harbor.

It may be necessary for the Coast Guard to establish additional safety or security zones in addition to these regulations to safeguard dignitaries and certain vessels participating in the event. If the Coast Guard deems it necessary to establish such zones at a later date, the details of those zones will be announced separately via the **Federal Register**, Local Notice to Mariners, Safety Voice Broadcasts, and any other means available.

With the arrival of War of 1812 Bicentennial Commemorations participants and spectator vessels in the Port of Baltimore for this event, it will be necessary to curtail normal port operations to some extent. The Coast Guard will attempt to minimize interference while still ensuring the safety of life on the navigable waters immediately before, during, and after the scheduled events.

Discussion of Proposed Rule

The War of 1812 Bicentennial Commemorations vessels are scheduled to arrive in the Captain of the Port (COTP) Baltimore Zone, as described in 33 CFR 3.25-15, beginning on June 12, 2012, following a route that includes specified waters of the Chesapeake Bay, Patapsco River, Northwest Harbor and the Inner Harbor. The War of 1812 Bicentennial Commemorations vessels are scheduled to depart the COTP Baltimore Zone, ending on June 20, 2012, following a route that includes specified waters of the Inner Harbor, Northwest Harbor, Patapsco River and the Chesapeake Bay. The safety of War of 1812 Bicentennial Commemorations vessels and spectators requires that spectator craft be kept at a safe distance from these routes during these vessel movements.

The Coast Guard proposes establishing special local regulations for the area in the Port of Baltimore through which the vessels will pass for the War of 1812 Bicentennial Commemorations arrival on June 13, 2012 and the War of 1812 Bicentennial Commemorations

departure on June 19, 2012. In addition to establishing special local regulations, we propose to establish temporary moving safety zones around War of 1812 Bicentennial Commemorations vessels greater than 100 feet in length overall, while operating in the navigable waters of the Chesapeake Bay or its tributaries, north of the Maryland—Virginia border and south of latitude 39°35'00" N. This action is necessary to ensure the safety of participants and spectators immediately prior to, during, and following the War of 1812 Bicentennial Commemorations activities.

The regulations contained within this proposed rule are not intended to effect existing Naval Vessel Protection Zone regulations described in Title 33 CFR Part 165 (Subpart G).

Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Regulatory Planning and Review

Executive Orders 12866, Regulatory Planning and Review, and 13563, Improving Regulation and Regulatory Review, direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. The primary impact of this proposed rule would be on vessels wishing to transit the affected waterways during the War of 1812 Bicentennial Commemorations vessels arrival beginning on June 12, 2012 and their departure ending on June 20, 2012. Although this proposed rule would prevent traffic from transiting a portion of the Inner Harbor, Northwest Harbor, Patapsco River and the Chesapeake Bay during these events, that restriction is limited in duration, affects only a limited area, and would be well publicized to allow mariners to make

alternative plans for transiting the affected area. Moreover, the magnitude of the event itself would severely hamper or prevent transit of the waterway, even absent this proposed rule, which is designed to ensure it is conducted in a safe and orderly fashion.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This proposed rule would affect the following entities, some of which might be small entities: The owners or operators of vessels intending to operate or anchor in portions of the Inner Harbor, the Northwest Harbor and Patapsco River, and the Chesapeake Bay, in Maryland. The regulations would not have a significant impact on a substantial number of small entities for the following reasons: The restrictions are limited in duration, affect only limited areas, and will be well publicized to allow mariners to make alternative plans for transiting the affected areas. Moreover, the magnitude of the event itself will severely hamper or prevent transit of the waterway, even absent these regulations designed to ensure it is conducted in a safe and orderly fashion.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact Commander,

Coast Guard Sector Baltimore, 2401 Hawkins Point Road, Building 70, Baltimore, Maryland, 21226–1791, Attention to: Waterways Management Division. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to

safety that might disproportionately affect children.

Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321-4370f), and have made a preliminary determination

that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment.

This proposed rule involves establishing special local regulations issued in conjunction with a marine event, as described in figure 2-1, paragraph (34)(h), of the Instruction. Under figure 2-1, paragraph (34)(h), of the Instruction, an environmental analysis checklist and categorical exclusion determination are not required for this proposed rule. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

Additionally, this proposed rule is categorically excluded, under figure 2-1, paragraph (34)(g), of the Instruction. This rule also involves establishing a temporary safety zone. A preliminary environmental analysis checklist and a categorical exclusion determination are available in the docket where indicated under **ADDRESSES**.
