

USTR-2011-0015. Instructions for submitting business confidential versions are provided below. Hand-delivered submissions will not be accepted. Submissions must be submitted in English to the Chairman of the GSP Subcommittee, Trade Policy Staff Committee, by the deadline set forth in this notice.

All submissions for the GSP Annual Review must conform to the GSP regulations set forth at 15 CFR part 2007, except as modified below. These regulations are available on the USTR Web site at <http://www.ustr.gov/trade-topics/trade-development/preference-programs/generalized-system-preference-gsp/gsp-program-inf>. Any person or party making a submission is strongly advised to review the GSP regulations as well as the GSP Guidebook, which is available at the same link.

To make a submission using www.regulations.gov, enter docket number USTR-2011-0015 in the "Search" field on the home page and click "Search." The site will provide a search-results page listing all documents associated with this docket. Locate the reference to this notice by selecting "Notice" under "Document Type" in the section on the left hand side of the search-results page, and click on the link entitled "Submit a Comment" on the right-hand side of the page under the heading "Actions." The

www.regulations.gov Web site offers the option of providing comments by filling in a "Type Comment" field or by attaching a document using the "Upload file(s)" field. Given the detailed nature of the information sought by the GSP Subcommittee, it is preferred that submissions be provided in an attached document. When attaching a document, type (1) 2011 GSP Annual Product Review; (2) the product description and related HTS tariff number; (3) "See attached" in the "Type Comment" field on the online submission form, and indicate on the attachment that the document is, "Written Comments"

Submissions should not exceed 30 single-spaced, standard letter-size pages in 12-point type, including attachments. Any data attachments to the submission should be included in the same file as the submission itself, and not as separate files.

Each submitter will receive a submission tracking number upon completion of the submissions procedure at www.regulations.gov. The tracking number will be the submitter's confirmation that the submission was received into www.regulations.gov. The confirmation should be kept for the submitter's records. USTR is not able to

provide technical assistance for the web site. Documents not submitted in accordance with these instructions may not be considered in this review. If unable to provide submissions as requested, please contact the GSP Program at USTR to arrange for an alternative method of transmission.

Business Confidential Submissions

A person seeking to request that information contained in a submission from that person be treated as business confidential information must certify that such information is business confidential and would not customarily be released to the public by the submitter. Confidential business information must be clearly designated as such. The submission must be marked "BUSINESS CONFIDENTIAL" at the top and bottom of the cover page and each succeeding page, and the submission should indicate, via brackets, the specific information that is confidential. Additionally, "Business Confidential" must be included in the "Type Comment" field.

A person submitting public and business confidential submissions must submit each of them separately in the appropriate docket at www.regulations.gov. One submission containing the clearly-marked business confidential information, and a separate submission containing the public version of the submission, indicating where confidential information has been redacted.

Public versions of all documents relating to the 2011 Annual Review will be made available for public viewing in docket USTR-2011-0015 at www.regulations.gov upon completion of processing and no later than one week after the due date.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Petition for Exemption From the Vehicle Theft Prevention Standard; Nissan

AGENCY: National Highway Traffic Safety Administration (NHTSA) Department of Transportation (DOT).

ACTION: Grant of petition for exemption.

SUMMARY: This document grants in full Nissan North America, Inc.'s (Nissan) petition for exemption of the Juke vehicle line in accordance with 49 CFR Part 543, *Exemption from Vehicle Theft Prevention Standard*. This petition is granted, because the agency has determined that the antitheft device to be placed on the line as standard equipment is likely to be as effective in reducing and deterring motor vehicle

theft as compliance with the parts-marking requirements of the Theft Prevention Standard (49 CFR part 541). Nissan requested confidential treatment of specific information in its petition by letter dated November 29, 2011. The agency addressed Nissan's request for confidential treatment by letter dated December 29, 2011.

DATES: The exemption granted by this notice is effective beginning with the 2013 model year (MY).

FOR FURTHER INFORMATION CONTACT: Ms. Carlita Ballard, Office of International Policy, Fuel Economy and Consumer Programs, NHTSA, West Building, W43-439, 1200 New Jersey Avenue SE, Washington, DC 20590. Ms. Ballard's telephone number is (202) 366-5222. Her fax number is (202) 493-2990.

SUPPLEMENTARY INFORMATION: In a petition dated November 29, 2011, Nissan requested an exemption from the parts-marking requirements of the Theft Prevention Standard (49 CFR part 541) for the MY 2013 Nissan Juke vehicle line. The petition requested an exemption from parts-marking pursuant to 49 CFR part 543, *Exemption from Vehicle Theft Prevention Standard*, based on the installation of an antitheft

device as standard equipment for the entire vehicle line.

Under § 543.5(a), a manufacturer may petition NHTSA to grant an exemption for one vehicle line per model year. In its petition, Nissan provided a detailed description and diagram of the identity, design and location of the components of the antitheft device for the Juke vehicle line. Nissan will install a passive transponder-based, electronic immobilizer, antitheft device as standard equipment on its Juke vehicle line beginning with MY 2013. Major components of the antitheft device will include an engine control module, immobilizer/body control module (BCM), immobilizer antenna and a security indicator light. Nissan will also install an audible and visible alarm system on the Juke as standard equipment. Nissan stated that activation of the immobilization device occurs automatically when the ignition key is turned to the "OFF" position and all the doors are closed and locked through the use of the key or the remote control mechanism. Deactivation occurs when all the doors are unlocked with the key or remote control mechanism. Nissan's submission is considered a complete petition as required by 49 CFR 543.7, in that it meets the general requirements
