

for that month. The Exchange recognizes that the rebate for a DMM whose providing liquidity is currently 10% or less of the NYSE's total intraday adding liquidity will decrease from \$0.0030 to \$0.0026. The Exchange believes that this change is reasonable, equitable and not unfairly discriminatory because it would result in rebates being applied that are more representative of the amount of liquidity added by the particular DMM. In this regard, the Exchange believes that a DMM that meets both the More Active Securities Quoting Requirement and the More Active Securities Quoted Size Ratio Requirement is likely to also be providing liquidity that is reasonably close to, but not greater than, 10% of the NYSE's total intraday adding liquidity in each such security for that month. In contrast, the Exchange believes that a DMM whose providing liquidity is greater than 10% of the NYSE's total intraday adding liquidity would be adding liquidity above the amount associated with meeting both the More Active Securities Quoting Requirement and the More Active Securities Quoted Size Ratio Requirement. Accordingly, the Exchange considers it reasonable, equitable and not unfairly discriminatory to provide a higher rebate for a DMM whose providing liquidity is greater than 10% of the NYSE's total intraday adding liquidity in each such security for that month.

The Exchange notes that the current \$0.0026 per-share rebate would no longer be applicable only to the incremental liquidity that is more than 20% of the NYSE's total intraday adding liquidity in each such security for that month. In this regard, the Exchange believes that the proposal to increase the rebate to \$0.0029 is reasonable, equitable and not unfairly discriminatory because it would balance the effect of the rate applying on a cumulative basis, as opposed to incrementally.

The Exchange also believes that the technical amendments proposed herein would better assist member organizations and others that view the Price List in determining the fees and credits that are applicable on the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A)³⁴ of the Act and subparagraph (f)(2) of Rule 19b-4³⁵ thereunder, because it establishes a due, fee, or other charge imposed by the NYSE.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File No. SR-NYSE-2012-07 on the subject line.

solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its 2012 Price List ("Price List") for certain fees relating to trading securities listed on the Nasdaq Stock Market LLC ("Nasdaq securities") pursuant to unlisted trading privileges ("UTP"). The text of the proposed rule change is available at the Exchange, www.nyse.com, and the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Price List for certain fees relating to trading Nasdaq securities pursuant to UTP. The amended pricing will become operative on March 1, 2012.

Currently, market participants and Designated Market Makers ("DMMs") are charged a fee of \$0.0004 per share for orders in Nasdaq securities with a share price of \$1 or more and a fee of 0.20% of total dollar value of the transaction for orders in Nasdaq securities with a share price below \$1 traded pursuant to UTP that take liquidity. Under the proposal, the fee will be \$0.0027 per share for orders with a share price of \$1 or more that take liquidity and 0.30% of total dollar value of the transaction for orders with a share price below \$1 that take liquidity.

Currently, market participants and DMMs are charged a fee of \$0.0025 per share for orders in Nasdaq securities with a share price of \$1 or more and a fee of 0.20% of total dollar value of the transaction for orders in Nasdaq securities with a share price below \$1 that route to other markets. Under the proposal, the fee will be \$0.0027 per

share for such orders with a share price of \$1 or more and .30% of total dollar value of the transaction for such orders with a share price below \$1.

Market participants, other than DMMs and Supplemental Liquidity Providers ("SLPs"), that provide liquidity in Nasdaq securities with a share price of \$1 or more traded pursuant to UTP are currently paid a rebate of \$0.0010 per share. Under the proposal, such market participants will be paid a rebate of \$0.0030 per share.

Currently, for orders in Nasdaq securities with a share price of \$1 or more traded pursuant to UTP that provide liquidity, DMMs are paid a rebate of \$0.0020 per share, SLPs that meet their quoting requirements pursuant to NYSE Amex Rule 107B are paid a rebate of \$0.0011 per share, and SLPs that do not meet their quoting requirements are paid a rebate of \$0.0010 per share. Under the proposal, the rebate for such orders will be \$0.0031 per share for DMMs, \$0.0031 per share for SLPs that meet their quoting requirements, and \$0.0030 per share for SLPs that provide liquidity but do not meet their quoting requirements.³

Currently, market participants and SLPs are paid a rebate of \$0.0020 per share for executions of displayed liquidity in Nasdaq securities with a share price of \$1 or more when they are adding liquidity in orders that originally display a minimum of 2,000 shares with a trading price of at least \$5.00 per share, as long as the order is not cancelled in an amount that would reduce the original displayed amount below 2,000 shares. Under the proposal, market participants and SLPs will be paid a rebate of \$0.0036 per share for executions of displayed liquidity in Nasdaq securities with a share price of \$1 or more when they are adding liquidity in orders that originally display a minimum of 2,000 shares with a trading price of at least \$5.00 per share, as long as the order is not cancelled in an amount that would reduce the original displayed amount below 2,000 shares.

Currently, DMMs receive a rebate of \$0.0020 per share in Nasdaq securities with a share price of \$1 or more traded pursuant to UTP for executions of the displayed portions of s-Quotes that provide liquidity and display 2,000 shares or more at the time of execution with a trading price of at least \$5.00 per

share. Under the proposal, DMMs will be paid a rebate of \$0.0036 per share for executions of the displayed portions of s-Quotes that provide liquidity and display 2,000 shares or more at the time of execution with a trading price of at least \$5.00 per share.

The Exchange also proposes a technical change to remove language in the Price List that references reduced fees for market participants that meet certain average daily executed volume requirements; those reduced fees were eliminated in September 2011 and this text was inadvertently not removed at that time.⁴ The Exchange proposes to include a reference within the Price List to the last date on which the Price List was amended.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6(b) of the Securities Exchange Act of 1934 (the "Act"),⁵ in general, and Section 6(b)(4) of the Act,⁶ in particular, in that it is designed to provide for the equitable allocation of reasonable dues, fees, and other charges among its members and other persons using its facilities. The Exchange believes that the proposal does not constitute an inequitable allocation of fees, as all similarly situated market participants will be charged or credited the same amount and access to the Exchange's market is offered on fair and non-discriminatory terms.

With respect to the increased credits for providing liquidity, the Exchange believes that the credits will attract more volume to the Exchange from participants that are seeking to lower their overall transaction costs and thereby will result in a more competitive market in the trading of Nasdaq securities pursuant to UTP. The Exchange further believes that the increases in the fees for DMMs, SLPs, and market participants for taking liquidity are appropriate in light of the increase in credits for providing liquidity. The Exchange also believes that it is reasonable not to increase the credits for providing liquidity in Nasdaq securities with a share price below \$1 because there are only a small number of issues that trade below \$1, these shares are thinly traded, and increased credits could have the potential of being greater than the spread, creating an inappropriate incentive to trade.

The Exchange believes that raising the fee for routing to other markets for

³ The Exchange notes that the proposed rebates will be the same as the rebates that were in place prior to September 1, 2011. See Securities Exchange Act Release No. 65283 (September 7, 2011), 76 FR 56850 (September 14, 2011) (SR-NYSEAmex-2011-67).

⁵ 15 U.S.C. 78f(b).

⁶ 15 U.S.C. 78f(b)(4).

orders in Nasdaq securities with a share price of \$1 or more to \$0.0027 is reasonable because the fee is lower than the fee previously charged by the Exchange⁷ and lower than routing fees charged by other markets, including BATS BYX with its CYCLE routing fee of \$0.0028 per share.⁸ The Exchange believes that raising the fee for routing to other markets for orders in Nasdaq securities with a share price below \$1 to 0.30% of total dollar value of the transaction is reasonable because it will cover the costs associated with routing orders away from the Exchange.

With respect to the increase in rebates to DMMs, SLPs, and market participants for providing liquidity in 2,000 or more share orders for securities priced at \$5 or more, the Exchange believes that the proposed rebates are fair given that the Exchange is increasing the fee for taking liquidity. The Exchange believes the fee change will attract more displayed liquidity, lower transaction costs, and improve overall trading.

Finally, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. The Exchange believes that the proposed rule change reflects this competitive environment because it will broaden the conditions under which customers may qualify for higher liquidity provider credits.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section

19(b)(3)(A)⁹ of the Act and subparagraph (f)(2) of Rule 19b-4¹⁰ thereunder, because it establishes a due, fee, or other charge imposed by the NYSE Amex.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
