The Special Milk Program for Children

Abstract: Section 3 of the Child Nutrition Act (CNA) of 1966, (42 U.S.C. 1772) authorizes the Special Milk Program (SMP). It provides for the appropriation of such sums as may be necessary to enable the Secretary of Agriculture to encourage the consumption of fluid milk by children in the United States in: (1) Nonprofit schools of high school grade and under; and (2) nonprofit nursery schools, child care centers, settlement houses, summer camps, and similar nonprofit institutions devoted to the care and training of children, which do not participate in a food service program authorized under the CNA or the National School Lunch Act.

Section 10 of the CNA (42 U.S.C. 1779) requires the Secretary of Agriculture to prescribe such regulations as deemed necessary to carry out this Act and the National School Lunch Act. Pursuant to that provision, the Secretary has issued 7 CFR part 215, which sets forth policies and procedures for the administration and operation of the SMP. State and local operators of the SMP are required to meet Federal reporting and accountability requirements. The vast majority of reporting relates to information regarding eligibility determinations of the children, the

number of milk servings, and revenues received from milk sales. State and local operators are also required to maintain records regarding eligibility to operate the program, review results, and accounts of revenues and expenditures. The reporting and record keeping burden associated with this revision is decreased from 508,485 to 21,246 hours. This change is mainly due to program adjustments and the reduction in number of State agencies operating the Program.
