Title of Collection: School Leadership Program (SLP) Annual Performance Report.

OMB Control Number: 1855-0019.

Type of Review: Extension.

Total Estimated Number of Annual Responses: 22.

Total Estimated Number of Annual Burden Hours: 880.

Abstract: There are two GPRA performance objectives and six performance measures for SLP grantees. The two GPRA performance objectives are: To recruit, prepare, and support individuals from education or other fields to become principals or assistant principals of schools in high-need local educational agencies (LEAs) and to train and support principals and assistant principals from schools in high-need LEAs in order to improve their skills and increase retention. Most grantees will report on the GPRA measures for only one of the objectives because most grantees focus on either recruiting and training new principals and assistant principals or providing training to currently practicing principals and assistant principals. The SLP APR is a customized APR that goes beyond the

ED 524B APR; this data collection is requested to facilitate the collection of more standardized and comprehensive data to address the program's GPRA measures, to improve the overall quality of data collected, and to increase the quality of data that can be used to inform policy decisions.

Title of Collection: Case Studies of Current and Former Grantees of the Title III National Professional Development Program (NPDP)

OMB Control Number: Pending.

Type of Review: New.

Total Estimated Number of Annual Responses: 438.

Total Estimated Number of Annual Burden Hours: 450.

Abstract: The purpose of this study is to examine how a sample of grantees is implementing their grants with respect to four areas: (1) The content and structure of the education they provide to current and prospective teachers of English Learners; (2) the nature of changes they attempt to make to the full teacher education program at their institutions; (3) the efforts grantees make to institutionalize their projects so that they can be sustained after the grant ends; and (4) their efforts to track former program participants. Information gathered on these four topics will be used to identify issues that could be investigated in a larger, more representative study.

This study will consist of 15 purposively-selected current grantees

and nine purposively-selected former grantees. The case study sites will be selected from among the grantees in the 2007 cohort ("current grantees") and those in the 2002 and 2004 cohorts ("former grantees"), and will provide information on some of the pre-service and in-service teacher training models and approaches that current grantees are using, as well as strategies that former grantees have used to track newly-minted teachers after program completion and to plan for continuing program services after the federal grant period.

The study will collect data from the current grantees through site visits and from the former grantees through telephone interviews.
