

does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes Class E airspace at Bellefonte Airport, Bellefonte, PA.

Regulatory Analysis and Notices

Administrative Procedure Act

The Department of State is of the opinion that controlling the import and export of defense articles and services is a foreign affairs function of the United States Government and that rules implementing this function are exempt from § 553 (Rulemaking) and § 554 (Adjudications) of the Administrative Procedure Act. Since the Department is of the opinion that this rule is exempt from 5 U.S.C. 553, it is the view of the Department of State that the provisions of § 553(d) do not apply to this rulemaking. Therefore, this rule is effective upon publication. The Department also finds that, given the national security issues surrounding U.S. policy towards Sri Lanka, notice and public procedure on this rule would be impracticable, unnecessary, or

contrary to the public interest; for the same reason, the rule will be effective immediately. See 5 U.S.C. 808(2).

Regulatory Flexibility Act

Since this amendment is not subject to 5 U.S.C. 553, it does not require analysis under the Regulatory Flexibility Act.

Unfunded Mandates Act of 1995

This amendment does not involve a mandate that will result in the expenditure by state, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any year and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995.

Small Business Regulatory Enforcement Fairness Act of 1996

This amendment has been found not to be a major rule within the meaning of the Small Business Regulatory Enforcement Fairness Act of 1996.

Executive Orders 12372 and 13132

This amendment will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 13132, it is determined that this amendment does not have sufficient federalism implications to require consultations or warrant the preparation of a federalism summary impact statement. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities do not apply to this amendment.

Executive Order 12866

The Department is of the opinion that controlling the import and export of defense articles and services is a foreign affairs function of the United States Government and that rules governing the conduct of this function are exempt from the requirements of Executive Order 12866. However, the Department has reviewed the rule to ensure its consistency with the regulatory philosophy and principles set forth in the Executive Order.

Executive Order 12988

The Department of State has reviewed the amendment in light of sections 3(a) and 3(b)(2) of Executive Order 12988 to eliminate ambiguity, minimize

litigation, establish clear legal standards, and reduce burden.

Executive Order 13563

The Department of State has considered this rule in light of Executive Order 13563, dated January 18, 2011, and affirms that this regulation is consistent with the guidance therein.

Executive Order 13175

The Department has determined that this rulemaking will not have tribal implications, will not impose substantial direct compliance costs on Indian tribal governments, and will not preempt tribal law. Accordingly, Executive Order 13175 does not apply to this rulemaking.

Paperwork Reduction Act

This rule does not impose any new reporting or recordkeeping requirements subject to the Paperwork Reduction Act, 44 U.S.C. Chapter 35.

SUPPLEMENTARY INFORMATION:

Background on Wine Labeling

TTB Authority

Section 105(e) of the Federal Alcohol Administration Act (FAA Act), 27 U.S.C. 205(e), authorizes the Secretary of the Treasury to prescribe regulations for the labeling of wine, distilled spirits, and malt beverages. The FAA Act requires that these regulations, among other things, prohibit consumer deception and the use of misleading statements on labels, and ensure that labels provide the consumer with adequate information as to the identity and quality of the product. The Alcohol and Tobacco Tax and Trade Bureau (TTB) administers the regulations promulgated under the FAA Act.

Use of Appellations of Origin on Wine Labels

Part 4 of the TTB regulations (27 CFR part 4) sets forth standards promulgated under the FAA Act for the labeling and advertising of wine. Section 4.25 of the TTB regulations (27 CFR 4.25) sets forth rules regarding the use of appellations of origin. An appellation of origin for an American wine is defined in § 4.25(a)(1) as:

- The United States;
- A State;
- Two or no more than three States which are all contiguous;
- A county;
- Two or no more than three counties in the same State; or
- A viticultural area as defined in § 4.25(e).

Section 4.25(b)(1) states that an American wine is entitled to an appellation of origin other than a multicounty or multistate appellation, or a viticultural area, if, among other requirements, at least 75 percent of the wine is derived from fruit or agricultural products grown in the appellation area indicated. Use of an appellation of origin comprising two or no more than three States which are all contiguous is allowed under § 4.25(d) if:

- All of the fruit or other agricultural products were grown in the States indicated, and the percentage of the wine derived from fruit or other agricultural products grown in each State is shown on the label with a tolerance of plus or minus 2 percent;
- The wine has been fully finished (except for cellar treatment pursuant to 27 CFR 4.22(c) and blending that does not result in an alteration of class or type under 27 CFR 4.22(b)) in one of the labeled appellation States; and
- The wine conforms to the laws and regulations governing the composition, method of manufacture, and designation of wines in all the States listed in the appellation.

An appellation of origin for imported wine is defined in § 4.25(a)(2) as:

- A country;
- A state, province, territory, or similar political subdivision of a country equivalent to a state or county; or
- A viticultural area (which is defined in § 4.25(e)(1)(ii) in the case of imported wine).

Section 4.25(b)(2) states that an imported wine is entitled to an appellation of origin other than a viticultural area if: “(1) At least 75 percent of the wine is derived from fruit or agricultural products grown in the area indicated by the appellation of origin; and (2) the wine conforms to the requirements of the foreign laws and regulations governing the composition, method of production, and designation of wines available for consumption within the country of origin.” There is no provision in the current TTB regulations for the use of multistate appellations on imported wines.

The existing regulations regarding appellations of origin, including the provisions permitting multistate appellations for American wines, were
