On February 10, 2012, Commission staff designated Mr. Stephen Bowler to serve as the Commission staff Dispute Resolution Panel (Panel) chair. On March 2, 2012, NMFS designated Mr. David White as the Agency Dispute Resolution Panel member.² From an established list of potential third party panelists, Mr. Bowler and Mr. White selected Mr. Richard Craven and requested that he serve on the Panel. Mr. Craven agreed to serve and the Panel convened on March 10, 2012. Mr. Craven's statement certifying that he has no conflict of interest, which also summarizes his qualifications, has been filed into the record. None of the three panelists have been involved previously in the Don Pedro Hydroelectric Project relicensing proceeding.

By letter filed March 15, 2012, the Panel requested that the Director of the Office of Energy Projects (Director) modify the timeframe for submission of the Panel's recommendations from 50 to 60 days from the start of the dispute resolution process, specifically from April 24, 2012 to May 4, 2012. The Panel also recommended the modification of the deadline for the Director's determination on the study dispute from 70 to 80 days from the start of the dispute resolution process, specifically from May 14, 2012 to May 24, 2012. By this notice, the Director modifies the schedule as recommended and requested by the Panel under his authority provided in 18 CFR 5.29(f)(2) of the Commission's regulations. The resulting process plan for dispute resolution is as follows:

The purpose of the technical conference is for the disputing agencies, the applicant, and the Commission to provide the Panel with additional information necessary to evaluate the disputed studies. All local, state, and federal agencies, Indian tribes, and other interested parties are invited to attend the meeting as observers. The Panel may also request information or clarification on written submissions as necessary to understand the matters in dispute. The Panel will limit all input that it receives to the specific studies or information in dispute and will focus on the applicability of such studies or information to the study criteria stipulated in 18 CFR 5.9(b). If the number of participants wishing to speak creates time constraints, the Panel may, at its discretion, limit the speaking time for each participant.

one business day ahead of the deadline established by the Commission of March 5, 2012. Because of the delay in establishing an eligible agency panel member, March 5, 2012 will serve as the date of initiation of the dispute resolution process rather

Title: Application for Registration of Pesticide-Producing and Device-

Producing Establishments (EPA Form 3540-8) and Pesticide Report for Pesticide-Producing and Device-Producing Establishments (EPA Form 3540-16). (40 CFR part 167) (Renewal).

ICR numbers: EPA ICR No. 0160.10, OMB Control No. 2070-0078.

ICR Status: This ICR is scheduled to expire on May 31, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7(a) requires that any person who produces pesticides or pesticide devices subject to the Act must register with the Administrator of EPA the establishment in which the pesticide or the device is produced. This Section further requires that application for registration of any establishment shall include the name and address of the establishment and of the producer who operates such an establishment. EPA Form 3540-8, Application for Registration of Pesticide-Producing and Device-Producing Establishments, is used to collect the establishment registration information required by this Section.

FIFRA Section 7(c) requires that any producer operating an establishment registered under Section 7 report to the Administrator within 30 days after it is registered, and annually thereafter by March 1st for certain pesticide/device production and sales/distribution information. The producers must report which types and amounts of pesticides, active ingredients, or devices are currently being produced, were produced during the past year, and sold or distributed in the past year. The supporting regulations at 40 CFR part 167 provides the requirements and time schedules for submitting production information. EPA Form 3540-16, Pesticide Report for Pesticide-Producing and Device-Producing Establishments, is used to collect the pesticide production information required by Section 7(c) of FIFRA.

Establishment registration information, collected on EPA Form 3540-8, is a one-time requirement for all pesticide-producing and device-producing establishments. Pesticide and device production information, reported on EPA Form 3540-16, is required to be submitted within 30 days after the company is notified of their pesticide-producing or device-producing establishment number, and annually thereafter on or before March 1st.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average about 1.5 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Establishments registering pesticides.

Estimated Number of Respondents: 13,830.

Frequency of Response: Annually.

Estimated Total Annual Hour Burden: 19,987.

Estimated Total Annual Cost: \$1,545,104. There are no annualized capital or O&M costs associated with this ICR since all equipment associated with this ICR is present as Part of ordinary business practices.

Changes in the Estimates: There is an increase of 829 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an adjustment in the estimates of the number of respondents.

John Moses,

Director, Collection Strategies Division.
