

received authorization to manage the Biosolids (Sludge) Program. In states that do not have authority for these programs, the Agency issues and administers NPDES permits. Because some permit applications are processed by states and some by EPA, this ICR calculates government burden and costs for both states and EPA.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 4.3 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Estimated Number of Respondents:** 398,340 (397,703 facilities and 637 States/Tribes/Territories).

**Frequency of Response:** Once, every five years, annually, semi-annually, quarterly, bimonthly, monthly, biweekly, weekly, daily, ongoing, occasionally/as needed.

**Estimated Total Annual Hour Burden:** 21,324,741 hours.

**Estimated Total Annual Cost:** \$1,014,324,384 includes \$211,074 annualized capital costs and \$18,551,848 annualized O&M costs.

**Change in Burden:** There is a decrease of 9,618,566 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease in burden corresponds to 31 percent of the overall burden. The main reasons for the change in burden is that EPA generated a new estimate of construction sites based on data collected for the development of the final Construction Effluent Limitation Guidelines. The Agency revised its estimate of the number of large and small construction sites covered by this ICR downward from 243,076 to 84,472 sites annually. The impact of this change in the number of construction sites is a decrease of 8,051,315 hours.

Some other specific reasons for burdens changes are presented below:

- EPA's continuous effort to improve the quality of data in its PCS and ICIS-NPDES. This change could reflect more accurate data rather than a significant change in the number of permits actually administered. This change is particularly important for activities related to general permittees because in previous ICRs, EPA based the calculation on best professional estimates; whereas, for this ICR, the Agency has real inventory numbers from PCS and ICIS-NPDES.

- All CSO permits or enforcement orders have fulfilled the obligation of Phase I technology-based CSO control requirements (Nine Minimum Controls).

- Previously, EPA accounted for 6 hours per CAAP facilities to submit Form 2b and 0.5 hours per application per state to process and review the form. This burden from CAAP facilities and states has been transferred to the Animal Sectors ICR (OMB Control No. 2040-0250).

- In the previous ICR, EPA accounted for the state burden of 24 hours per pretreatment compliance inspection, but this burden has been transferred to the Pretreatment ICR (OMB Control No. 2040-0009).

### Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS for Lime Manufacturing (Renewal)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

**DATES:** Additional comments may be submitted on or before April 23, 2012.

**ADDRESSES:** Submit your comments, referencing docket ID number EPA-HQ-OECA-2011-0240, to: (1) EPA online

using [www.regulations.gov](http://www.regulations.gov) (our preferred method), or by email to: [docket.oeca@epa.gov](mailto:docket.oeca@epa.gov), or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 28221T, 1200 Pennsylvania Avenue NW., Washington, DC 20460; and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street NW., Washington, DC 20503.

#### FOR FURTHER INFORMATION CONTACT:

Learia Williams, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; email address: [williams.learia@epa.gov](mailto:williams.learia@epa.gov).

**SUPPLEMENTARY INFORMATION:** EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 9, 2011 (76 FR 26900), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2011-0240, which is available for public viewing online at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains

copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to [www.regulations.gov](http://www.regulations.gov).

*Title:* NSPS for Lime Manufacturing (Renewal).

*ICR Numbers:* EPA ICR Number 1167.10, OMB Control Number 2060-0063.

*ICR Status:* This ICR is scheduled to expire on April 30, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for the EPA regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

*Abstract:* The New Source Performance Standards for Lime Manufacturing are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 60, subpart HH.

Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 60, subpart HH, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

*Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 46 hours per response. "Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for

the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities:* Lime production facilities.

*Estimated Number of Respondents:* 41  
*Frequency of Response:* Initially, occasionally, and semiannually.

*Estimated Total Annual Hour Burden:* 3,772

*Estimated Total Annual Cost:* \$422,931, which includes \$361,431 in labor costs, no capital/startup costs, and \$61,500 in operation and maintenance (O&M) costs.

*Changes in the Estimates:* There is an increase in costs for both the respondents and the Agency from the most recently approved ICR. The increase in burden cost is due to adjustments in labor rates. This ICR uses updated labor rates from the Bureau of Labor Statistics to calculate burden costs.

There is a decrease of one hour in labor hours for the respondents related to a mathematical rounding error in the previous ICR. There is no change in the estimation methodology for labor hours to the respondents in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for respondents is very low, negative, or non-existent.

[FRL-9650-6]

### Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for Public Service Company of New Mexico, San Juan Generating Station

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of final action.

**SUMMARY:** This document announces that the EPA Administrator has

responded to a citizen petition asking EPA to object to an operating permit (Permit Number P062R2) issued by the New Mexico Environment Department, Air Quality Bureau (NMED). Specifically, the Administrator has granted in part and denied in part the November 19, 2010 petition, submitted by WildEarth Guardians, the San Juan Citizens Alliance, and Carson Forest Watch (Petitioners) to object to the operating permit issued on January 24, 2011 to the Public Service Company of New Mexico, for the operations of the San Juan Generating Station (SJGS) located in San Juan County, New Mexico. Pursuant to sections 307(b) and 505(b)(2) of the Clean Air Act (CAA), a petition for judicial review of those parts of the Order that deny issues in the petition may be filed in the United States Court of Appeals for the appropriate circuit within 60 days from the date this notice appears in the **Federal Register**.

**ADDRESSES:** You may review copies of the final Order, the petition, and other supporting information at EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733.

EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view copies of the final Order, petition, and other supporting information. You may view the hard copies Monday through Friday, from 9 a.m. to 3 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final Order for the Public Service Company of New Mexico San Juan Generating Station is available electronically at: [http://www.epa.gov/region07/air/title5/petitiondb/petitions/san\\_juan\\_response2010.pdf](http://www.epa.gov/region07/air/title5/petitiondb/petitions/san_juan_response2010.pdf).

**FOR FURTHER INFORMATION CONTACT:** Brad Toups at (214) 665-7258, email address: [toups.brad@epa.gov](mailto:toups.brad@epa.gov) or the above EPA, Region 6 address.

**SUPPLEMENTARY INFORMATION:** The CAA affords EPA a 45-day period to review, and object to as appropriate, a Title V operating permit proposed by State permitting authorities. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator, within 60 days after the expiration of this review period, to object to a Title V operating permit if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the State, unless the petitioner demonstrates that it was impracticable to raise these
